THE SEVEN SUPREME SPIRIT GROUPS

(7 subclasses)

THE URANTIA BOOK: Paper 17

SEVEN MASTER SPIRITS

SUBCLASS:	1 of The Seven Supreme Spirit Groups
OFFSPRING OF:	Paradise Trinity
PRINCIPLE REALM:	Spheres of the Spirit of Havona
POPULATION:	7 (Stationary)
<i>The Urantia Book</i> :	Paper 16 and see below

Probably permanent rulers of the seven superuniverses [U.B. page 12]; the fifth of the evolutionary creature's sevenfold approach to Deity [U.B. page 11]; the supreme and ultimate representatives of the Infinite Spirit [U.B. page 150]; the primary personalities of the Infinite Spirit [U.B. page 184]; the eternal portrayal of sevenfold Deity [U.B. page 185]; the full representation of the Infinite Spirit to the evolutionary universes [U.B. page 189]; distribute mind to the grand universe as cosmic mind [U.B. page 102]; the first of the three supreme spirits [U.B. page 107]; the personal nature of each Master Spirit entirely pervades and uniquely conditions his superuniverse [U.B. page 190]; maintain the Paradise clearinghouse of information between the superuniverses [U.B. page 179]; encompass the functional domain of the Supreme-Ultimate to and in the master universe [U.B. page 185]; endowed with the supreme-ultimate attributes of the Third Source and Center; all of everything which has been told you concerning the divinity and personality of the Conjoint Actor applies equally and fully to the Seven Master Spirits; are distinctly and definitely personal; they have names, but we elect to introduce them by number [U.B. page 186]; do not directly invade the material minds of the individual creatures on the evolutionary worlds of space; we do not encounter the direct influence of the Seven Master Spirits in the affairs of the human races [U.B. page 191]; have authority to sanction the trinitizing union of Finaliters and Paradise-Havona personalities, and such mixed liaisons are always successful [U.B. page 250].

SEVEN SUPREME EXECUTIVES

SUBCLASS:	2 of The Seven Supreme Spirit Groups
OFFSPRING OF:	Paradise Trinity
PRINCIPLE REALM:	Spheres of the Spirit of Havona
POPULATION:	7 (Stationary)
<i>The Urantia Book:</i>	Paper 17-1 and see below

Collectively function as the administrative board of supermanagers for the seven superuniverses [page 268]; the Master Spirits act in the persons of the Seven Supreme Executives in all matters of an executive nature--rulings, regulations, adjustments, and administrative decisions [U.B. page 197]; function as the administrative co-ordinators of the grand universe; they might be termed the board of managing directors of the post-Havona creation; they are not concerned with the internal affairs of Paradise, and they direct their limited spheres of Havona activity through the Seven Spirits of the Circuits; otherwise there are few limits to the scope of their supervision; they engage in the direction of things physical, intellectual, and spiritual; they see all, hear all, feel all, even know all, that transpires in the seven superuniverses and in Havona [U.B. page 198]

REFLECTIVE SPIRITS

SUBCLASS:	3 of The Seven Supreme Spirit Groups
OFFSPRING OF:	Paradise Trinity
PRINCIPLE REALM:	Superuniverse Headquarters
POPULATION:	50
<i>The Urantia Book:</i>	Paper 17-3 and see below

Transmitting agents, retentive personalities, and live records of everything of true spiritual value [U.B. page 201]; true personalities but of such an order as to be incomprehensible to material beings [U.B. page 202]; the second of the three supreme spirits [U.B. page 107]; have names, but these designations are not revealed on the worlds of space; they pertain to the nature and character of these beings and are a part of one of the seven universal mysteries of the secret spheres of Paradise [U.B. page 200] ; variously reflect the natures and characters of the seven possible combinations of the association of the divinity characteristics of the Universal Father, the Eternal Son, and the Infinite Spirit; for this reason it is necessary to have seven of these Reflective Spirits on the headquarters of each superuniverse; one of each of the seven types is required in order to achieve the perfect reflection of all phases of every possible manifestation of the three Paradise Deities [U.B. page 200]; on the headquarters of the seven superuniverses the Master Spirits reveal themselves through the channel of the Reflective Spirits [U.B. page 197].

REFLECTIVE IMAGE AIDS

SUBCLASS:	4 of The Seven Supreme Spirit Groups
OFFSPRING OF:	Reflective Spirits
PRINCIPLE REALM:	Superuniverse Headquarters
POPULATION:	49
<i>The Urantia Book:</i>	Paper 17-4 and see below

Spokesmen of the seven Reflective Spirits and through them representatives of the Seven Master Spirits of Paradise; also function as the representatives of numerous groups of beings who are not, at present, for various reasons, fully active in their individual capacities [U.B. page 179]; the personal voices of the Reflective Spirits to the courts of the Ancients of Days [U.B. page 201]; are virtual duplications of their Reflective Mother Spirits minus the attribute of reflectivity; are true images and constantly function as the channel of communication between the Reflective Spirits and the superuniverse authorities; the Image Aids are not merely assistants, they are actual representations of their respective Spirit ancestors; they are images, and they are true to their name [U.B. page 202]; in the central universe the Master Spirits are in personal communication with the Ancients of Days through the Reflective Image Aids [U.B. page 197]; do not directly function in connection with the training worlds of ascending mortals; you will not personally come in contact with them when you sojourn in the Uversa schools because these seemingly personal beings are devoid of will; they do not exercise the power of choice, they are true images, wholly reflective of the personality and mind of the individual Spirit ancestor; as a class, ascending mortals do not intimately have contact with reflectivity; always some being of the reflective nature will be interposed between you and the actual operation of the service [U.B. page 202].

SEVEN SPIRITS OF THE CIRCUITS

SUBCLASS:	5 of The Seven Supreme Spirit Groups
OFFSPRING OF:	Infinite Spirit or associates of creative status
PRINCIPLE REALM:	Havona
POPULATION:	7 (stationary)
<i>The Urantia Book:</i>	Paper 17-5 and see below

Impersonal and specialized joint representation of the Infinite Spirit (and the Seven Master Spirits) [U.B. page 202] who balance and exquisitely organize the seven concentric circuits of the billion worlds of Havona [U.B. page 153]; directly supervise the seven planetary circuits of Havona [U.B. page 287]; co-ordinate the conduct of celestial affairs throughout each circuit [U.B. page 153]; the Universe Mother Spirits secure their prepersonal training in close association with the Spirits of the Circuits [U.B. page 162]; as you advance from circuit to circuit in Havona, you will learn of the Spirits of the Circuits, but you will not be able to hold personal communion with them, even though you may personally enjoy, and recognize the impersonal presence of, their spiritual influence [U.B. page 203]; each spirit is limited to

the permeation of a single Havona circuit [U.B. page 203]; enable a unified, uniform, and coordinated spiritual supervision for the central universe [U.B. page 202]; related to the native inhabitants of Havona much as the Thought Adjusters are related to mortal creatures, but never become a permanent part of Havona personalities [U.B. page 203].

LOCAL UNIVERSE CREATIVE MOTHER SPIRIT

(Also known as Divine Ministers)

SUBCLASS: 6 of The Seven Supreme Spirit Groups
OFFSPRING OF: Infinite Spirit or undisclosed associates of creative status
PRINCIPLE REALM: Local Universe
POPULATION: Not revealed
The Urantia Book: Paper 17-6 and see below

Co-creators of local universes [U.B. page 162]; co-operate in a very personal manner with the Creator Son in the planning and management of their local creation; from the earliest association with the Creator Son the Universe Spirit possesses all the physical-control attributes of the Infinite Spirit, including the full endowment of antigravity; upon the attainment of personal status the Universe Spirit exerts just as full and complete control of mind gravity, in the local universe, as would the Infinite Spirit if personally present [U.B. page 375]; collaborates with the Son in the production of the Bright and Morning Star; co-responsible with the Creator Son in producing the creatures of the worlds and never fails the Son in all efforts to uphold and conserve these creations [U.B. page 376]; the Holy Spirit of the Divine Minister would become nonfunctional if her personal presence should be removed from Salvington [U.B. page 378]; the Spirit of Truth works as one with the presence of the spirit of the Divine Minister; this dual spirit liaison hovers over the worlds, seeking to teach truth and to spiritually enlighten the minds of men, to inspire the souls of the creatures of the ascending races, and to lead the peoples dwelling on the evolutionary planets [U.B. page 379]; all Nebadon is certainly pervaded by the space presence of the Divine Minister of Salvington, and such presence just as certainly terminates at the outer borders of our local universe [U.B. page 455].

ADJUDANT MIND SPIRITS

SUBCLASS:	7 of The Seven Supreme Spirit Groups
OFFSPRING OF:	Local Universe Mother Spirit
PRINCIPLE REALM:	Planet
POPULATION:	7 (stationary)
<i>The Urantia Book:</i>	Paper 17-7 and see below

The intelligence-ministry circuit of a local universe [U.B. page 177]; the sevenfold mind bestowal of a local universe Mother Spirit upon the living creatures [U.B. page 205]; always accompany the Life Carriers to a new planet, but they should not be regarded as entities; they are more like circuits [U.B. page 402]; experientially grow, but never become personal [U.B. page 403]; similar in character but diverse in power, and all partake alike of the nature of the Universe Spirit, although they are hardly regarded as personalities [U.B. page 378]; superimpose their endowment on the non-teachable or mechanical levels of mind (those response mechanisms of organisms capable of learning from experience) [U.B. page 730] [U.B. page 398]; their presence on the primitive worlds conditions the course of organic evolution; and that explains why evolution is purposeful and not accidental; the seven, intuition, understanding, courage, knowledge, counsel, worship, and wisdom, send forth their influence into all the inhabited worlds as a differential urge, each seeking receptivity capacity for manifestation quite apart from the degree to which its fellows may find reception and opportunity for function [U.B. page 401]; the Adjusters cannot invade the mortal mind until it has been duly prepared by the indwelling ministry of the adjutant mind-spirits [U.B. page 1187]; endowment of mind is a bestowal of the adjutant mind-spirits in accordance with innate brain capacity; mind, while not a physical evolution, is wholly dependent on the brain capacity afforded by purely physical and evolutionary developments [U.B. page 670]; all mammalian mother love is the inherent endowment of the adjutant mind-spirits of the local universe and is in strength and devotion always directly proportional to the length of the helpless infancy of the species [U.B. page 932].

THE SUPREME TRINITY PERSONALITIES

(7 subclasses)

THE URANTIA BOOK: Paper 18

TRINITIZED SECRETS OF SUPREMACY

SUBCLASS: 1 of The Supreme Trinity Personalities
OFFSPRING OF: Paradise Trinity
PRINCIPLE REALM: Seven Spheres of the Father
POPULATION: 70, stationary
The Urantia Book: Paper 18-1 and see below

The personal agents of the specialized and impersonal presences of Divinity as they are represented in secret on the Seven Spheres of the Father [U.B. page 144]; the Trinitized Secrets of Supremacy, as their name might suggest, are related to the Supreme; they are likewise related to the Ultimate and to the future Supreme-Ultimate; they are the secrets of the Supreme and also the secrets of the Ultimate, even the secrets of the Supreme-Ultimate [U.B. page 149]; each of the seven worlds of the Father is presided over by a corps of ten Trinitized Secrets of Supremacy; they are not creators, but they are supreme and ultimate administrators [U.B. page 207]; there are no arbitrary secrets associated with the approach to the Universal Father, the Eternal Son, or the Infinite Spirit; the Deities are an open book to all who attain divine perfection, but all the Secrets of Supremacy can never be fully attained; always will we be unable fully to penetrate the realms containing the personality secrets of Deity association with the sevenfold grouping of created beings [U.B. page 208]

ETERNALS OF DAYS

SUBCLASS: 2 of The Supreme Trinity Personalities
OFFSPRING OF: Paradise Trinity
PRINCIPLE REALM: The Worlds of Havona
POPULATION: 1 billion, stationary
The Urantia Book: Paper 18-2 and see below

Administrators of the billion worlds of Havona [U.B. page 166]; not creators, but they are perfect administrators [U.B. page 155]; there is one for each of the Havona spheres; there are no records of their origin, and they function without rotation or reassignment; they are visible to all will creatures dwelling in their domains [U.B. page 208]; they have developed their respective spheres entirely in accordance with their own personal ideas and ideals; they visit each other's planets, but they do not copy or imitate; they are always and wholly original [U.B. page 209]

ANCIENTS OF DAYS

SUBCLASS:	3 of The Supreme Trinity Personalities
OFFSPRING OF:	Paradise Trinity
PRINCIPLE REALM:	The Seven Superuniverses
POPULATION:	21, stationary
<i>The Urantia Book:</i>	Paper 18-3 and see below

Rulers of the seven superuniverses [U.B. page 164]; the second phase of God the Sevenfold [U.B. page 628]; each superuniverse is presided over by three Ancients of Days [U.B. page 178]; apparently they are the supreme rulers of the superuniverses, but they have not experientially earned this right to rule and are therefore destined sometime to be superseded by the Supreme Being, an experiential sovereign, whose vicegerents they will undoubtedly become [U.B. page 210]; only the Ancients of Days may sit in executive judgment on the issues of eternal life and death; in all matters not requiring trial, the submission of evidence, the Ancients of Days or their associates render decisions, and these rulings are always unanimous [U.B. page 180]; refuse to annihilate any being until all moral values and all spiritual realities are extinct, both in the evildoer and in all related supporters and possible sympathizers [U.B. page 615]; all three Ancients of Days must participate in the final decrees of the supreme tribunal of a superuniverse (in all the annals of the superuniverses such a verdict has never been reversed by the Ancients of Days [U.B. page 217]); in power, scope of authority, and extent of jurisdiction the Ancients of Days are the most powerful and mighty of any of the direct rulers of the time-space creations [U.B. page 210]; were all trinitized at the same time, they represent the beginning of the personality records of the universe of universes, hence their name--Ancients of Days [U.B. page 209]; are all basically identical; they disclose the combined character and unified nature of the Trinity; they possess individuality and are in personality diverse, but they do not differ from each other as do the Seven Master Spirits [U.B. page 209]; the Seven Master Spirits on high determine the nature of their respective superuniverses, but the Ancients of Days dictate the administration of these same superuniverses; they superimpose administrative uniformity on creative diversity and insure the harmony of the whole in the face of the underlying creational differences of the seven segmental groupings of the grand universe [U.B. page 209]; they perfectly deduce the Father's will by equating the Spirit voice-flash from above and the Michael voice-flashes from below [U.B. page 309]; alone can decree the extinction of intelligent life, but also participate in the creation of the Life Carriers, who are entrusted with establishing physical life on the evolving worlds [U.B. page 396]; have some part in the inauguration of life on a new world, but we are wholly ignorant of the nature thereof. [U.B. page 404]

PERFECTIONS OF DAYS

SUBCLASS:	4 of The Supreme Trinity Personalities
OFFSPRING OF:	Paradise Trinity
PRINCIPLE REALM:	Major Sector
POPULATION:	210, stationary
<i>The Urantia Book:</i>	Paper 18-4 and see below

The rulers of the superuniverse major sectors [U.B. page 179]; the courts of the Perfections of Days are constituted much as are those of the Ancients of Days except that they do not sit in spiritual judgment upon the realms; the work of these major sector governments has chiefly to do with the intellectual status of a far-flung creation [U.B. page 181]; these triune rulers of the major sectors are peculiarly perfect in the mastery of administrative details, hence their name--Perfections of Days; three Perfections of Days are assigned to each major sector capital, but unlike the Ancients of Days, it is not necessary that all three be present at all times; from time to time one of this trio may absent himself to confer in person with the Ancients of Days concerning the welfare of his realm [U.B. page 210]; you will early see the Perfections of Days when you advance to the headquarters of Splandon after your sojourn on the worlds of your minor sector, for these exalted rulers are closely associated with the seventy major sector worlds of higher training for the ascendant creatures of time. [U.B. page 211]

RECENT OF DAYS

SUBCLASS:	5 of The Supreme Trinity Personalities
OFFSPRING OF:	Paradise Trinity
PRINCIPLE REALM:	Minor Sector
POPULATION:	21,000, stationary
<i>The Urantia Book:</i>	Paper 18-5 and see below

Three Recents of Days administer the affairs of the minor sector [U.B. page 166]; they are the youngest of the supreme directors of the superuniverses; in groups of three they preside over the affairs of the minor sectors; in nature they are co-ordinate with the Perfections of Days, but in administrative authority they are subordinate; there are just twenty-one thousand of these personally glorious and divinely efficient Trinity personalities; they were created simultaneously, and together they passed through their Havona training under the Eternals of Days [U.B. page 211]; since the regime of a minor sector is so extensively concerned with physical problems, its three Recents of Days are seldom together on the capital sphere; most of the time one is away in conference with the Perfections of Days of the supervising major sector or absent while representing the Ancients of Days at the Paradise conclaves of the high Trinity-origin beings; you will all sometime know the three Recents of Days in charge of Ensa, your minor sector, since you must pass through their hands on your way inward to the training worlds of the major sectors. [U.B. page 212]

A group of liaison personalities accredited by the Paradise Trinity to the dual rulers of the local universes; the Trinity personalities of the order of "Days" do not function in an administrative capacity below the level of the superuniverse governments; in the evolving local universes they act only as counselors and advisers; each organized and inhabited local universe has assigned to it one of these Paradise counselors, who acts as the representative of the Trinity, and in some respects, of the Universal Father, to the local creation; though they have not all been commissioned; in a special manner these Trinity observers co-ordinate the administrative activities of all branches of the universal government, from those of the local universes up through the sector governments to those of the superuniverse, hence their name--Unions of Days; they make a threefold report to their superiors: they report pertinent data of a physical and semi-intellectual nature to the Regents of Days of their minor sector, intellectual and quasi-spiritual happenings to the Perfections of Days of their major sector, and spiritual and semiparadisiacal matters to the Ancients of Days at the capital of their superuniverse.

FAITHFULS OF DAYS

SUBCLASS:	7 of The Supreme Trinity Personalities
OFFSPRING OF:	Paradise Trinity
PRINCIPLE REALM:	Constellation
POPULATION:	70 million, stationary
<i>The Urantia Book:</i>	Paper 18-3

The Paradise advisers to the rulers of the one hundred constellations in each local universe; there are seventy million Faithfuls of Days, and like the Unions of Days, not all are in service; Faithfuls of Days rotate in service in accordance with the rulings of the supreme council of their reserve corps; all that a Union of Days is to a Creator Son of a local universe, the Faithfuls of Days are to the Vorondadek Sons who rule the constellations of that local creation; they are supremely devoted and divinely faithful to the welfare of their constellations of assignment, hence the name--Faithfuls of Days; they act only as counselors; never do they participate in administrative activities except upon the invitation of the

constellation authorities; neither are they directly concerned in the educational ministry to the pilgrims of ascension on the architectural training spheres surrounding a constellation headquarters; all Faithfuls of Days functioning in the constellations of a local universe are under the jurisdiction of, and report directly to, the Union of Days; they do not have a far-flung system of intercommunication, being ordinarily self-limited to an interassociation within the limits of a local universe.

TRINITY TEACHER SONS (DAYNALS)

SUBCLASS:	1 of The Coordinate Trinity-Origin Beings
OFFSPRING OF:	Paradise Trinity
PRINCIPLE REALM:	Grand Universe
POPULATION:	undisclosed, but increasing
<i>The Urantia Book:</i>	Paper 19-1 and see below

Range the grand universe as the supernal teachers of all personalities, human and divine [U.B. page 88]; their numbers are constantly increasing [U.B. page 214]; devoted to the conscious enlightenment of universe creatures [U.B. page 220]; neither creators nor retrievers, neither judges nor rulers; they are not so much concerned with universe administration as with moral enlightenment and spiritual development; they are the universal educators, being dedicated to the spiritual awakening and moral guidance of all realms [U.B. page 230]; they are the supreme coordinating personalities of Trinity origin; in such a far-flung universe of universes there is always great danger of succumbing to the error of the circumscribed viewpoint, to the evil inherent in a segmentalized conception of reality and divinity [U.B. page 215]; come the nearest to being the personal representatives of the Universal Father in a local system [U.B. page 524]; they volunteer for emergency duty and unusual service in all divisions of the grand universe; the liaison beings who bridge the universe gulf between Trinity- and dual-origin personalities [U.B. page 214]; even now visit your world for the purpose of formulating plans concerning their projected sojourn on your sphere; they will be due to appear on Urantia after its inhabitants have gained comparative deliverance from the shackles of animalism and from the fetters of materialism; Trinity Teacher Sons have nothing to do with terminating planetary dispensations; they neither judge the dead nor translate the living, but on each planetary mission they are accompanied by a Magisterial Son who performs these services; teacher Sons are wholly concerned with the initiation of a spiritual age, with the dawn of the era of spiritual realities on an evolutionary planet [U.B. page 231]; the Daynals do not incarnate or otherwise so materialize themselves as to be visible to mortal beings; therefore is contact with the world of visitation maintained through the activities of the Brilliant Evening Stars; seem to be so completely identified with the regime of mortal progression through the earlier stages of evolutionary ascension that we are often led to speculate regarding their possible association with the Finaliters in the undisclosed career of the future universes. PERFECTOR OF WISDOM

SUBCLASS: 2 of The Coordinate Trinity-Origin Beings
OFFSPRING OF: Paradise Trinity
PRINCIPLE REALM: Supergovernments
POPULATION: 1 billion, stationary
The Urantia Book: Paper 19-2 and see below

Personify the wisdom of divinity in the superuniverses; wholly occupied with the administration of the superuniverse governments [U.B. page 215]; wisdom is twofold in origin, being derived from the perfection of divine insight inherent in perfect beings and from the personal experience acquired by evolutionary creatures, the Perfector of Wisdom are the divine wisdom of the Paradise perfection of Deity insight; wherever and whenever a Perfector of Wisdom functions, there and then divine wisdom functions; they do not reflect the wisdom of the Paradise Trinity; they *are* that wisdom [U.B. page 216]; the Perfector of Wisdom so function that through the Voices of Wisdom they not only hear the actual and original expressions of wisdom but also reflectively see the very beings, of high or lowly origin, who gave voice to it; "If any man lack wisdom, let him ask." [U.B. page 310]

DIVINE COUNSELORS

POPULATION: 21 billion, stationary
The Urantia Book: Paper 19-3 and see below

The counsel of Deity to the realms of the seven superuniverses; they are not reflective of the divine counsel of the Trinity; they *are* that counsel; there are three billion assigned to each superuniverse [U.B. page 216]; act as individuals, but also function as a trio whenever the occasion requires; one Perfector of Wisdom, seven Divine Counselors, and one Universal Censor constitute a tribunal of Trinity divinity, the highest mobile advisory body in the universes of time and space; such a group of nine is known either as a fact-finding or as a truth-revealing tribunal, and when it sits in judgment upon a problem and renders a decision, it is just as if an Ancient of Days had adjudicated the matter, for in all the annals of the superuniverses such a verdict has never been reversed by the Ancients of Days; seven Divine Counselors in liaison with a trinitized evolutionary trio--a Mighty Messenger, One High in Authority, and One without Name and Number--represent the nearest superuniverse approach to the union of the human viewpoint and the divine attitude on near-paradisiacal levels of spiritual meanings and reality values; such close approximation of the united cosmic attitudes of the creature and the Creator is only surpassed in the Paradise bestowal Sons, who are, in every phase of personality experience, God and man. <i>The Urantia Book:</i>	Paper 19-4 and see below

Represent the collective attitude of Deity in the domains of executive judgment--justice [U.B. page 114]; these unique beings *are* the judgment of Deity; they are not merely reflective of the decisions of perfection, they *are* the judgment of the Paradise Trinity; even the Ancients of Days do not sit in judgment except in association with the Universal Censors [U.B. page 217]; whenever and wherever a Universal Censor is present, then and there is the judgment of Deity; they are an organic part of all dispensational adjudications of the evolutionary worlds; it appears to me (a Divine Counselor) that the Censors formulate new meanings and originate new values from the association of the facts, truths, and findings presented to them in the course of an investigation of universe affairs; it seems probable that the Universal Censors are able to bring forth original interpretations of the combination of perfect Creator insight and the perfected creature experience; this association of Paradise perfection and universe experience undoubtedly eventuates a new value in ultimates; it seems likely that the Censors are in some manner in liaison with the Deity Absolute [U.B. page 218]; in some way not fully understood, the Universal Censors are able to gain possession of an epitome of the human life as it is embodied in the Adjuster's duplicate transcription of the spiritual values and morontia meanings of the indwelt mind; the Censors are able to appropriate the Adjuster's version of the deceased human's survival character and spiritual qualities, and all this data, together with the seraphic records, is available for presentation at the time of the adjudication of the individual concerned. One of the few wholly secret orders of impersonal [U.B. page 214] beings in existence, secret, and without discoverable form [U.B. page 483] no doubt, because it is impossible for them fully to reveal themselves even to those of us whose origin is so near the source of their creation; they come into being by the act of the Paradise Trinity and may be utilized by any one or two of the Deities as well as by all three; the Melchizedeks of Nebadon teach that Inspired Trinity Spirits are destined, sometime in the eternal future, to function in the places of the Solitary Messengers, whose ranks are slowly but certainly being depleted by their assignment as associates of certain types of trinitized sons; the Inspired Spirits are the solitary Spirits of the universe of universes; as Spirits they are very much like the Solitary Messengers except that the latter are distinct personalities [U.B. page 219]; in some way the Thought Adjusters may possibly be associated in certain phases of the work of the Inspired Spirits; they are probably functioning as teachers of the realms by superconscious techniques [U.B. page 220]; the only types of beings, along with Solitary Messengers, capable of functioning in the temperature and extreme physical conditions of outer space [U.B. page 329], and who maintain any organic association with the Transcendentals and the Architects of the Master Universe. HAVONA NATIVES

OFFSPRING OF:	Paradise Trinity

In their very nature they *are* the will of God [U.B. page 157]; they respond to forty-nine differing sensation stimuli [U.B. page 154]; are non-reproducing beings; minister in many ways to Paradise descenders and to superuniverse ascenders, but they also live lives that are unique in the central universe and have relative meaning quite apart from either Paradise or the superuniverses [U.B. page 157]; it is not possible for Urantians to conceive of the inherent endowments of such divinely perfect creatures; you can never truly envisage these glorious creatures; you must await your arrival in Havona, when you can greet them as spirit comrades [U.B. page 221]; Havoners have both optional present and future unrevealed

destinies, and there is a progression of native creatures that is peculiar to the central universe, a progression that involves neither ascent to Paradise nor penetration of the superuniverses; this progression to higher Havona status may be suggested as follows:

1. Experiential progress outward from the first to the seventh circuit;
2. Progress inward from the seventh to the first circuit;
3. Intracircuit progress--progression within the worlds of a given circuit;

In addition to the Havona natives, the inhabitants of the central universe embrace numerous classes of pattern beings for various universe groups--advisers, directors, and teachers of their kind and to their kind throughout creation; all beings in all universes, even the mortals of time, are fashioned along the lines of some one order of pattern creature living on some one of the billion worlds of Havona [U.B. page 157]; they may also service-factualize capacity for fusion with a non-Adjuster Father fragment and so qualify for membership in the Mortal Corps of the Finality; ascending mortals, in their long and loving association with the Havona natives, do much to compensate for the spiritual impoverishment of the earlier stages of mortal progression; at the same time, through their contacts with ascending pilgrims, the Havoners gain an experience which to no small extent overcomes the experiential handicap of having always lived a life of divine perfection [U.B. page 221]; millions upon millions of Havona natives are on a waiting list to become affiliated with the future work of the Corps of Mortal Finaliters. There are more than three thousand orders of these supernal intelligences, the last group having been personalized simultaneously with the mandate of the Trinity which promulgated the creative plan of the seven superuniverses of time and space not directly concerned with the scheme of perfecting ascending will creatures [U.B. page 222]; the creative efforts of the Paradise Citizens and the Havoners result in the trinitization of certain high spiritual aspects of the Supreme Being which they have experientially acquired on a supersupreme background bordering on the Ultimate and the Eternal [U.B. page 251]; while in Havona you will fully recognize and exquisitely fraternize with the descending pilgrims, the Paradise Citizens, who traverse these circuits from within outward, entering Havona through the pilot world of the first circuit and proceeding outward to the seventh [U.B. page 288]; when you mortal ascenders attain Paradise you must fraternize with upwards of three thousand different

orders of Paradise Citizens [U.B. page 300]; the Paradise Citizens descend from the eternal Isle through Havona, where they acquire capacity for Supremacy comprehension through observation of the Paradise-Havona reality differential and by exploratory discovery of the manifold activities of the Supreme Creator Personalities, ranging from the Master Spirits to the Creator Sons. Creators and organizers of the universes of time and space [U.B. page 24], and the first level of God the Sevenfold [U.B. page 626]; the Universal Father is in every way divinely present in the Creator Sons [U.B. page 28]; "He who has seen the Son has seen the Father" [U.B. page 74]; aspire to duplicate in time and to reproduce in space the pattern universe [U.B. page 152]; organize the gravity-responding forces of the Master Force Organizers into inhabited universes and therein evolve intelligent creatures [U.B. page 645]; strive to make their own universes eventually attain to Paradise-Havona levels of perfection [U.B. page 162]; almost infinite variety characterizes the plans of the Creator Sons for organizing, evolving, disciplining, and settling their respective local universes [U.B. page 360]; bestow themselves upon the varied orders of creature life and as the creatures themselves [U.B. page 87]; these Sons are not attached to, nor are they concerned with, the central and universal controls of matter, mind, and spirit; hence are they limited in their creative acts by the pre-existence, priority, and primacy of the First Source and Center and his co-ordinate Absolutes; they are able to administer only that which they bring into existence [U.B. page 88]; the Creator Sons seem to possess a spiritual endowment centering in their persons, which they control and which they can bestow, as did your own Creator Son when he poured out his spirit upon all mortal flesh on Urantia; each is endowed with this spiritual drawing power in his own realm; he is personally conscious of every act and emotion of every descending Son of God serving in his domain [U.B. page 224]; there is no essential experience of any of the children of time and space in which the Michaels have not personally participated; they are in fact partakers not only of the divine nature but also of your nature, meaning all natures, from the highest to the lowest [U.B. page 234]; some appear to be more like God the Father; others more like God the Son [U.B. page 235]; the personal presence of a Creator Son in his local universe is not necessary to the smooth running of an established material creation; such Sons may journey to Paradise, and still their universes swing on through space; they may lay down their lines of power to incarnate as the children of time; still their realms whirl on about their respective centers; the fact of creatorship implies the fullness of sovereignty, but the Michaels choose to experientially earn it, thereby retaining the full co-operation of all Paradise personalities attached to the local universe administration; we know of no Michael who ever did otherwise [U.B. page 237]; beyond doubt, the Creator Sons and their mortal children are preparing for some future and unknown universe service [U.B. page 297]; we conjecture that the Michaels, the Creator Sons, are destined to function in the outer universes; some hold that the future ages will witness some closer form of union between the associated Creator Sons and Divine Ministers [U.B. page 643]; creature-bestowal experiences of the Michaels qualify

them to portray the experiential divinity of the Supreme Being [U.B. page 367]; all functions of the Creator Sons are not exempt from space limitations; a Creator Son is not handicapped by time, but he is conditioned by space; he cannot personally be in two places at the same time. [U.B. page 377]

MAGISTERIAL SONS (AVONALS)

SUBCLASS: 2 of The Paradise Sons of God
OFFSPRING OF: Paradise Son and Spirit
PRINCIPLE REALM: Planets
POPULATION: probably about 1 billion
The Urantia Book: See below

Sons who, in the experiences of creature incarnation, earn the right to serve as the judges of survival in the creations of time and space [U.B. page 88]; though not creators in the personal sense, they are closely associated with the Michaels in all their work; the Avonals are planetary ministers and judges, the magistrates of the time-space realms--of all races, to all worlds, and in all universes [U.B. page 224]; in addition to their services on the higher administrative levels, they have a threefold function on the inhabited worlds:

1. *Judicial Actions.* They act at the close of the planetary dispensations;
2. *Magisterial Missions.* A planetary visitation of this type usually occurs prior to the arrival of a bestowal Son. On such a mission an Avonal appears as an adult of the realm by a technique of incarnation not involving mortal birth;
3. *Bestowal Missions.* The Avonal Sons do all, at least once, bestow themselves upon some mortal race, born of woman;

In every planetary effort the Avonals are supported by the full power and authority of the Creator Son of their local universe of service [U.B. page 225]; they are known as Magisterial Sons because they are the high magistrates of the realms, the adjudicators of the successive dispensations of the worlds of time; they preside over the awakening of the sleeping survivors, sit in judgment on the realm, bring to an end a dispensation of suspended justice, execute the mandates of an age of probationary mercy, reassign the space creatures of planetary ministry to the tasks of the new dispensation, and return to the headquarters of their local universe upon the completion of their mission; when they sit in judgment on the destinies of an age, the Avonals decree the fate of the evolutionary races, but though they may render judgments extinguishing the identity of personal creatures, they do not execute such sentences [U.B. page 226]; in all their work on the worlds of a local universe the Magisterial Sons are just as divinely effective and all wise as would have been their Paradise brother, the Creator Son [U.B. page 228]; never does a Magisterial Son proclaim, "Whosoever has seen the Son has seen the Father," as did your Creator Son when on Urantia and in the flesh; but a bestowed Avonal does declare, "Whosoever has seen me has seen the Eternal Son of God." [U.B. page 229]; when on a bestowal mission are always accompanied

by a corps of 144 Supreme Seraphim [U.B. page 427]; these dispensations of the Magisterial Sons cover anywhere from twenty-five thousand to fifty thousand years of Urantia time. [U.B. page 595]

MELCHIZEDEK SONS

The Melchizedeks function as mobile and advisory review courts of the realms; these universe Sons go in small groups to the worlds to serve as advisory commissions, to take depositions, to receive suggestions, and to act as counselors, thus helping to compose the major difficulties and settle the serious differences which arise from time to time in the affairs of the evolutionary domains [U.B. page 386]; they are known as emergency Sons; they are always ready to serve in all exigencies--physical, intellectual, or spiritual--whether on a planet, in a system, in a constellation, or in the universe; they are the first to act in all emergencies of whatever nature on all worlds where will creatures dwell; and they sometimes act as temporary custodians on wayward planets, serving as receivers of a defaulting planetary government [U.B. page 389]; these eldest Sons of a universe are the chief aids of the Bright and Morning Star in carrying out the mandates of the Creator Son [U.B. page 386]; they are the first order of divine Sons to approach sufficiently near the lower creature life to be able to function directly in the ministry of mortal uplift, to serve the evolutionary races without the necessity of incarnation; these Sons are natural intermediaries between the higher and divine levels of living existence and the lower, even the material, forms of life on the evolutionary worlds [U.B. page 385]; possess no power of reproduction [U.B. page 389]; always accompany the Life carriers when they go forth to establish life on a new planet [U.B. page 396]; they are the pattern and the teachers of self-government to all the spheres of Nebadon and all orders of intelligent beings; on their own initiative these Sons patrol their native universe; they maintain an autonomous organization devoted to universe intelligence, and are by nature unprejudiced observers; the Melchizedeks are well-nigh perfect in wisdom, but they are not infallible in judgment; when detached and alone on planetary missions, they have sometimes erred in minor matters [U.B. page 386]; the highest course of training in universe administration, The College of High Ethics, is given by the Melchizedeks on their home world [U.B. page 388]; the Melchizedeks' education system is practical, progressive, meaningful, and experiential, it embraces training in things material, intellectual, morontial, and spiritual [U.B. page 394]; the Melchizedeks now teach that the good resulting from the Satania rebellion is more than a thousand times the sum of all the evil [U.B. page 619]; in every local system of inhabited worlds throughout Nebadon there is a single sphere whereon the Melchizedeks have functioned as life carriers; these abodes are known as the system Midsonite worlds [U.B. page 400]; the Nebadon Melchizedeks long since denominated the phenomenon of the transmutation of cosmic force into universe power as one of the seven "infinities of divinity" [U.B. page 471]; if some physical catastrophe should doom the

planetary residence of an evolving race, the Melchizedeks and the Life Carriers would install the technique of dematerialization for all survivors, and by seraphic transport these beings would be carried away to the new world prepared for their continuing existence. [U.B. page 582]

Rulers of the constellations, in which capacity they are known as “Most Highs”; the service of the Vorondadeks in the local universes is extensive and varied; they serve as ambassadors to other universes and as consuls representing constellations within their native universe [U.B. page 390]; these Sons are a self-governing body, as individuals and as groups, much as are the Melchizedeks, but Vorondadeks do not function through such a wide range of activities; they do not equal their Melchizedek brethren in brilliant versatility, but they are even more reliable and efficient as rulers and farseeing administrators; neither are they quite the administrative peers of their subordinates, the Lanonandek System Sovereigns, but they excel all orders of universe sonship in stability of purpose and in divinity of judgment; they cannot reproduce [U.B. page 389]; their work more largely pertains to the legislative functions indigenous to the constellation governments [U.B. page 390]; the Constellation Fathers are little occupied with the individuals of an inhabited planet, but they are closely associated with those legislative and lawmaking functions of the constellations which so greatly concern every mortal race and national group of the inhabited worlds [U.B. page 488]; this rule of the Most Highs in the kingdoms of men is not for the especial benefit of any especially favored group of mortals; there is no such thing as a "chosen people"; the rule of the Most Highs, the overcontrollers of political evolution, is a rule designed to foster the greatest good to the greatest number of all men and for the greatest length of time [U.B. page 1488]; they rule in the kingdoms of men rather than in the hearts of individuals [U.B. page 495]; the Vorondadek Sons have become the historians of the local universes; they are personally familiar with all the political struggles and the social upheavals of the inhabited worlds; often a corps of twelve or more Vorondadek Sons sits en banc as a high court of review and appeal concerning special cases involving the status of a planet or a system; they have sometimes been cited for error, and in details of technique their decisions have sometimes been reversed on appeal to the superior tribunals of the universe, but these Sons rarely fall into error, and they have never gone into rebellion; never in all the history of Nebadon has a Vorondadek been found in contempt of the universe government. They are best known as System Sovereigns, the rulers of the local systems, and as Planetary Princes, the administrative heads of the inhabited worlds; they are divided into three classes: Primary, Secondary, and tertiary; it is not possible, as it is with evolutionary beings, for these Sons to progress from one group to another; when subjected to the Melchizedek training, when once tested and classified, they serve continuously in the rank assigned; neither do these Sons engage in reproduction; since Lanonandeks are a somewhat lower order of sonship than the Melchizedeks and the Vorondadeks, they are of even greater service in the subordinate units of the universe, for they are capable of drawing nearer the lower creatures of the intelligent races; they also stand in greater danger of going astray, of departing from the acceptable technique of universe government [U.B. page 392]; the System Sovereigns are true to their names; they are well-nigh sovereign in the local affairs of the inhabited worlds; the personal grasp of the sovereign is all but complete; these rulers are not supervised by Trinity observers from the central universe; they are the executive division of the local universe, and as custodians of the enforcement of legislative mandates and as executives for the application of judicial verdicts, they present the one place in all universe administration where personal disloyalty to the will of the Michael Son could most easily and readily entrench itself and seek to assert itself; our local universe has been unfortunate in that over seven hundred Sons of the Lanonandek order have rebelled against the universe government, thus precipitating confusion in several systems and on numerous planets; of this entire number of failures only three were System Sovereigns; practically all of these Sons belonged to the second and third orders, Planetary Princes and tertiary Lanonandeks; the large number of these Sons who have lapsed from integrity does not indicate any fault in creatorship; they could have been made divinely perfect, but they were so created that they might better understand, and draw near to, the evolutionary creatures dwelling on the worlds of time and space [U.B. page 393]; not all universes, even in Orvonton, are so organized as to permit the System Sovereigns to exercise such unusually wide powers of personal discretion in the direction of system affairs, but in all the history of Nebadon these untrammelled executives have exhibited disloyalty only three times; the Lucifer rebellion in the system of Satania was the last and the most widespread of all.

Entrusted with designing and carrying creature life to the planetary spheres; and afterwards remain there for long periods to foster its development [U.B. page 396]; while the original life designs are provided by the Creator Son, the actual outworking of these plans is entrusted to the Life Carriers and their associates [U.B. page 397]; work constantly in an effort to improve the vital formulas committed to their keeping; in the planetary life-planning laboratories the Life Carriers and their associates collaborate with the Melchizedeks in the effort to modify and possibly improve the life designed for implantation on the decimal planets of Nebadon; Urantia is a decimal planet [U.B. page 398]; they often carry actual life plasm to a new world, but not always; Life Carriers sometimes organize the life patterns after arriving on the planet of assignment in accordance with formulas previously approved for a new adventure in life establishment; such was the origin of the planetary life of Urantia; in the bestowal of life the Life Carriers transmit nothing of their personal natures, they simply initiate and transmit the spark of life, start the required revolutions of matter in accordance with the physical, chemical, and electrical specifications of the ordained plans and patterns [U.B. page 399]; during the ages intervening between life establishment and the emergence of human creatures of moral status, the Life Carriers are permitted to manipulate the life environment and otherwise favorably directionize the course of biologic evolution; and this they do for long periods of time; when the Life Carriers operating on a new world have once succeeded in producing a being with will, with the power of moral decision and spiritual choice, then and there their work terminates--they are through; they are not permitted to experiment or to interfere with will; they are not allowed to dominate or arbitrarily influence moral creatures [U.B. page 400]; when an evolutionary planet is settled in light and life, the Life Carriers are organized into the higher deliberative bodies of advisory capacity to assist in the further administration and development of the world and its glorified beings [U.B. page 396]; a Life Carrier volunteers on a world in the second stage of light and life to help efforts to further purify and stabilize the mortal race [U.B. page 627]; Life Carriers are endowed with potentials of personality metamorphosis which but few orders of creatures possess: they are able to function and do function on the following three levels:

1. The physical level of electrochemistry;
2. The usual mid-phase of quasi-morontial existence;
3. The advanced semi-spiritual level [U.B. page 730]; function with seraphic destiny guardians, the Thought Adjusters, and the archangels of the resurrection on the Mansion Worlds in resurrecting mortals. [U.B. page 532]

Superuniverses
The Urantia Book: Paper 22-2 and see below

A class of perfected mortals who have been rebellion tested or otherwise equally proved as to their personal loyalty; at some time in their Paradise ascent they stood firm and loyal in the face of the disloyalty of their superiors, and some did actively and loyally function in the places of such unfaithful leaders; they are assigned to all phases of superuniverse activities [U.B. page 245]; they are not Finaliters; when they have been Trinity embraced, they pass through specific courses of training, for comparatively short periods; thereafter they are assigned to the services of the Ancients of Days in the seven superuniverses [U.B. page 244]; in the superuniverse courts, Mighty Messengers act as defenders of both individuals and planets when they come up for adjudication; every ascendant mortal of insurrectionary experience who functions loyally in the face of rebellion is eventually destined to become a Mighty Messenger of the superuniverse service; likewise is any ascendant creature who effectively prevents such upheavals of error, evil, or sin; for action designed to prevent rebellion or to effect higher types of loyalty in a universe crisis is regarded as of even greater value than loyalty in the face of actual rebellion [U.B. page 245]; Mighty Messengers are fully conscious of their entire ascendant careers, and that is why they are such useful and sympathetic ministers, understanding messengers, for service on any world of space and to any creature of time [U.B. page 246]; being Trinity embraced, they are nonparticipating in the growth of the present universe age; their status is fixed by the Trinity embrace, and experience no longer eventuates in growth. <i>The Urantia Book:</i>	Paper 22-3

Perfected mortals who have exhibited superior administrative ability and have shown extraordinary executive genius throughout their long ascending careers; they are the cream of governing ability derived from the surviving mortals of space; having superb administrative wisdom and unusual executive skill, these brilliant beings assume to present the cause of justice in behalf of the superuniverse tribunals; they foster the execution of justice and the rectification of misadaptations in the evolutionary universes; therefore, if you should ever be cited for errors of judgment while you are ascending the worlds and spheres of your ordained cosmic progression, it is hardly likely that you would suffer injustice since your prosecutors would be onetime ascendant creatures who are personally familiar with every step of the career you have traversed and are traversing. [U.B. page 246]; they are not Finaliters; when they have been Trinity embraced, they pass through specific courses of training, for comparatively short periods; thereafter they are assigned to the services of the Ancients of Days in the seven superuniverses [U.B. page 244]

3. Those without Name and Number

POPULATION:	over 100 million commissioned in Orvonton
<i>The Urantia Book:</i>	Paper 22-4

Ascendant souls who have developed the ability to worship beyond the skill of all the sons and daughters of the evolutionary races from the worlds of time and space; they have acquired a spiritual concept of the eternal purpose of the Universal Father which comparatively transcends the comprehension of the evolutionary creatures of name or number, therefore are they denominated Those without Name and Number; more strictly translated, their name would be "Those above Name and Number" [U.B. page 246]; they are not Finaliters; when they have been Trinity embraced, they pass through specific courses of training, for comparatively short periods; thereafter they are assigned to the services of the Ancients of Days in the seven superuniverses [U.B. page 244]; since Those without Name and Number are the superior spiritual minds of the survival races, they are especially qualified to sit in judgment and to render opinions when a spiritual viewpoint is desirable, and when experience in the ascendant career is essential to an adequate comprehension of the questions involved in the problem to be adjudicated; they are the supreme jurors of Orvonton. 1. Trinitized Custodians

SUBCLASS: 1 of the Trinitized Sons of Selection
OFFSPRING OF: Ascendant Superuniverses
PRINCIPLE REALM: Headquarters of Major, and Minor Sectors
POPULATION: over 10 million in Orvonton seraphim and translated midway creatures

Trinity-embraced seraphim and Midwayers who are the officers of the courts functioning in the tribunals of the Ancients of Days, the Perfections of Days, and the Recents of Days [U.B. page 211]; the candidates for the Trinity embrace from among the ascendant seraphim are accorded this recognition because of their valiant co-operation with some ascendant mortal who attained the Corps of the Finality and was subsequently trinitized [U.B. page 248]; Trinitized Custodians administer group affairs and foster collective projects; they are the custodians of records, plans, and institutions; they act as the trustees of undertakings, personality groups, ascendant projects, morontia plans, universe projections, and innumerable other enterprises. [U.B. page 248]

SUBCLASS: 2 of the Trinitized Sons of Selection
OFFSPRING OF: Mortals
PRINCIPLE REALM: Master Universe, especially Minor Sector
POPULATION: Almost 500 million on Uversa
The Urantia Book: Paper 22-6

Represent the superior minds of Spirit- and Son-fused mortals and are, therefore, best qualified to assist the superuniverse rulers in understanding and in administering the interests of those worlds from which the Spirit-fused mortals hail; the Son-fused Ambassadors are of great assistance in dealing with problems involving the Son-fused order of personality; Trinitized Ambassadors are the emissaries of the Ancients of Days for any and all purposes, to any and all worlds or universes within the superuniverse of their assignment; they render particular and important services on the headquarters of the minor sectors, and they perform the numberless miscellaneous assignments of a superuniverse; they are the emergency or reserve corps of the Trinitized Sons of the supergovernments, and they are therefore available for a great range of duties; they engage in thousands upon thousands of undertakings in superuniverse affairs which it is impossible to portray to human minds since there is nothing transpiring on Urantia that is in any way analogous to these activities.

OFFSPRING OF: Perfected human beings and Paradise-Havona personalities
PRINCIPLE REALM: Headquarters of Major Sector

The Urantia Book: Paper 22 and see below

Perform the routine work of major sector affairs [U.B. page 210]; are chiefly assigned to the administrations of the Perfections of Days on the headquarters of the major sectors; Celestial Guardians are versed in the affairs of the ascendant career, not by personal ascension, but as a result of their service with the Trinity Teacher Sons on the worlds of space; they are the officers of the courts of the Ancients of Days, functioning as court messengers and as bearers of the summonses and decisions of the various tribunals of the superuniverse governments; they are the apprehending agents of the Ancients of Days; going forth from Uversa to bring back beings whose presence is required before the superuniverse judges; they execute the mandates for the detention of any personality in the superuniverse; the Celestial Guardians have never been indwelt by Adjusters; neither are they Spirit nor Son fused; the embrace of the Paradise Trinity does, however, compensate for the non-fused status of the Trinitized Sons of Perfection; the Trinity embrace may act solely upon the idea which is personified in a creature-trinitized son, leaving the embraced son otherwise unchanged, but such a limitation occurs only when so planned; these twice-trinitized sons are marvelous beings, but they are neither as versatile nor dependable as their ascendant associates; they lack that tremendous and profound personal experience which the rest of the sons belonging to this group have acquired by actually climbing up to glory from the dark domains of space [U.B. page 252]; Trinitized Sons of Perfection are limited in contrast to other Trinity-embraced sons because their experiential capacity is time-space inhibited; they are experience-deficient; on the mansion worlds they have been seen looking longingly and appealingly at even the recent arrivals from the evolutionary worlds of space; these possessors of non-experiential trinitization really envy their supposedly less fortunate brethren who ascend the universal path by steps of bona fide experience and actual living. Function as personal aids to the high sons of the governments of the Ancients of Days; they might fittingly be denominated private secretaries; they act, from time to time, as clerks for special commissions and other group associations of the high sons; the High Son Assistants owe their very existence to the fact that they are the personification of a single and supreme concept; they are the personality embodiment of some divine idea, some universal ideal, as it has never before been conceived, expressed, or trinitized; and they have subsequently been Trinity embraced; thus they show forth and actually embody the very wisdom of the divine Trinity as concerns the idea-ideal of their personality existence; as far as that particular concept is revealable to the universes, these personalities embody all of everything that any creature or Creator intelligence could possibly conceive, express, or exemplify; they are that idea personified [U.B. page 253]; the High Son Assistants have never been indwelt by Adjusters; neither are they Spirit nor Son fused; the embrace of the Paradise Trinity does, however, compensate for the non-fused status of the Trinitized Sons of Perfection; the Trinity embrace may act solely upon the idea which is personified in a creature-trinitized son, leaving the embraced son otherwise unchanged, but such a limitation occurs only when so planned; these twice-trinitized sons are marvelous beings, but they are neither as versatile nor dependable as their ascendant associates; they lack that tremendous and profound personal experience which the rest of the sons belonging to this group have acquired by actually climbing up to glory from the dark domains of space [U.B. page 252]; Trinitized Sons of Perfection are limited in contrast to other Trinity-embraced sons because their experiential capacity is time-space inhibited; they are experience-deficient; on the mansion worlds they have been seen looking longingly and appealingly at even the recent arrivals from the evolutionary worlds of space; these possessors of non-experiential trinitization really envy their supposedly less fortunate brethren who ascend the universal path by steps of bona fide experience and actual living. THE HIGHER PERSONALITIES OF THE INFINITE SPIRIT

(7 Subclasses)

THE URANTIA BOOK: Paper 24

SOLITARY MESSENGERS

SUBCLASS:	1 of The Higher Personalities of the Infinite Spirit
OFFSPRING OF:	Infinite Spirit
PRINCIPLE REALM:	Master Universe
POPULATION:	7,690 trillion in Orvonton; stationary
<i>The Urantia Book</i> :	Paper 23 and see below

Solitary Messengers are assigned by the Infinite Spirit to the following seven divisions of service:

1. Messengers of the Paradise Trinity;
2. Messengers of the Havona Circuits;
3. Messengers of the Superuniverses;
4. Messengers of the Local Universes;
5. Explorers of Undirected Assignment;
6. Ambassadors and Emissaries of Special Assignment;
7. Revelators of Truth [U.B. page 258]

The Solitary Messengers are the highest type of perfect and confidential personality available in all realms for the quick transmission of important and urgent messages when it is inexpedient to utilize either the broadcast service or the reflectivity mechanism; they serve in an endless variety of assignments, helping out the spiritual and material beings of the realms, particularly where the element of time is involved; of all orders assigned to the services of the superuniverse domains, they are the highest and most versatile personalized beings who can come so near to defying time and space [U.B. page 260]; Solitary Messengers are able to function as emergency lines of communication throughout remote space regions, realms not embraced within the established circuits of the grand universe [U.B. page 261]; they seem to be personality coordinators for all types of spirit beings; their ministry helps to make all the personalities of the far-flung spiritual world akin [U.B. page 262]; there is no part of the universal creation which is pre-existent to the Solitary Messengers except Paradise and the Havona circuits; these solitary spirits came forth in the dawn of time as full-fledged and perfectly endowed spirit beings; notwithstanding that these messengers are existent from the near times of eternity, they are all aware of a beginning of selfhood; they are conscious of time, being the first of the creation of the Infinite Spirit to possess such a time consciousness; they are the first-born creatures of the Infinite Spirit to be personalized in time and spiritualized in space [U.B. page 256]; no matter how much the universe may enlarge, no more Solitary Messengers will probably ever be created [U.B. page 262]; they are the only beings in all creation who can and do enjoy a solitary existence, albeit they equally enjoy association with the very few orders of universe intelligence with whom they can fraternize [U.B. page 256]; they could communicate with others of their number, but they have been directed by the council of the Seven Master Spirits not to do so, and they are a loyal group;

they do not disobey or default; like the Universe Power Directors, they are among the very few types of beings operating throughout the realms who are exempt from apprehension or detention by the tribunals of time and space [U.B. page 257]; these spirit messengers are in every sense interchangeable from one type of service to another, such transfers are constantly taking place; there are no separate orders of Solitary Messengers; they are spiritually alike and in every sense equal [U.B. page 258]; the Solitary Messengers are the only class of beings who seem to be possessed of well-nigh all the advantages of a formless spirit coupled with all the prerogatives of a full-fledged personality; they are true persons, yet endowed with nearly all of the attributes of impersonal spirit manifestation; in the seven superuniverses, ordinarily--but not always—everything which tends to increase any creature's liberation from the handicaps of time and space proportionately diminishes personality prerogatives. Solitary Messengers are an exception to this general law [U.B. page 261]; they are characterized by the possession of tremendous endowments of antigravity; the Solitary Messengers are without known general headquarters; they roam the universe of universes. UNIVERSE CIRCUIT SUPERVISORS

POPULATION: Increasing
The Urantia Book: Paper 24-1 and see below

Direct and manipulate the circuits of spiritual energy and those modified circuits which are essential to the maintenance of both the highly developed spiritual beings and the morontia or transition type of intelligent creatures; the supervisors do not give origin to circuits of energy and superessence of divinity, but in general they have to do with all higher spirit circuits of time and eternity and with all relative spirit circuits concerned in the administration of the component parts of the grand universe outside the Isle of Paradise [U.B. page 265]; direct all concerned as to the proper circuits to employ for the transmission of all spirit messages and for the transit of all personalities; they are able to throw any world out of certain universe circuits of the higher spiritual order, but they cannot annul the material currents of the power directors; it is they who would isolate an evolutionary world if its Planetary Prince should rebel; they are truly personal beings, but they possess a type of other-than-Father-endowed personality not encountered in any other type of creature in all universal existence; although you will recognize and know them as you journey inward towards Paradise, you will have no personal relations with them [U.B. page 266]; possess antigravity. CENSUS DIRECTORS

POPULATION:	100,000 in Orvonton, but unknown else-where
<i>The Urantia Book:</i>	Paper 24-2

The Census Directors, by a not-fully-understood technique, are made immediately aware of the birth of will in any part of the grand universe; they are, therefore, always competent to give us the number, nature, and whereabouts of all will creatures in any part of the central creation and the seven superuniverses; they are so created as to be able to maintain perfect synchrony with the reflectivity technique of the superuniverses, while at the same time they are personally sensitive and responsive to intelligent will, but they do not function on Paradise; there is no need for them there; on Paradise knowledge is inherent, the Deities know all things [U.B. page 266-7]; Census Directors register the existence of a new will creature when the first act of will is performed; they are concerned with human beings--as with other will creatures--only to the extent of recording the fact of will function; they are not concerned with the records of your life and its doings; they are not in any sense recording personalities; the Census Director of Nebadon, number 81,412 of Orvonton, now stationed on Salvington, is at this very moment personally conscious and aware of your living presence here on Urantia; exactly how they register the function of will, we do not know; these beings always have been, and always will be, Census Directors; they would be comparatively useless in any other division of universe labor; but they are infallible in function; they never default, neither do they falsify; and notwithstanding their marvelous powers and unbelievable prerogatives, they are persons. PERSONAL AIDS OF THE INFINITE SPIRITS

<i>The Urantia Book:</i>	Paper 24-3

Exist for the exclusive assistance of the Paradise presence of the Third Person of Deity; although attached directly to the Infinite Spirit and located on Paradise, they flash to and fro to the uttermost parts of creation; wherever the circuits of the Conjoint Creator extend, there these Personal Aids may appear for the purpose of executing the bidding of the Infinite Spirit; they traverse space much as do the Solitary Messengers but are not persons in the sense that the messengers are; the Personal Aids are all equal and identical; they disclose no differentiation of individuality; though the Conjoint Actor looks upon them as true personalities, it is difficult for others to regard them as real persons; they do not manifest a

spirit presence to other spirit beings; Paradise-origin beings are always aware of the proximity of these Aids; but we do not recognize a personality presence; the lack of such a presence-form undoubtedly renders them all the more serviceable to the Third Person of Deity; of all the revealed orders of spirit beings taking origin in the Infinite Spirit, the Personal Aids are about the only ones you will not encounter on your inward ascent to Paradise.

Coordinating personalities and liaison representatives of the Seven Supreme Executives [U.B. page 268]; in their administrative organization all sentinels commissioned in a local universe are subordinate to the Associate Inspector stationed at universe headquarters; they are among the highest ranking personalities stationed on a system capital, but they never participate in deliberations concerned with system affairs; in the local systems they serve as the ex officio heads of the four and twenty administrators hailing from the evolutionary worlds, but otherwise, ascending mortals have little contact with them, the sentinels are almost exclusively concerned in keeping the Associate Inspector of their universe fully informed on all matters relating to the welfare and state of the systems of their assignment.

Sponsor and conduct the high university of technical instruction and spiritual training which is so essential to mortal attainment of the goal of the ages: God, rest, and then eternity of perfected service; they are exclusively devoted to the tasks of guiding the mortal graduates from the superuniverses of time through the Havona course of instruction and training which serves to prepare the ascending pilgrims for admission to Paradise and the Corps of the Finality [U.B. page 269]; the guide who greets you upon your arrival on the receiving world of the outer Havona circuit will remain with you throughout your entire career on the heavenly circuits; though you will associate with countless other personalities during your sojourn on a billion worlds, your Graduate Guide will follow you to the end of your Havona progression; their origin is something of a mystery; they have not existed from eternity; they mysteriously appear as they are needed; though evolution is not the order of the central universe, we believe that the Graduate Guides are the perfected or more experienced members of another order of central universe creatures, the Havona Servitals; Graduate Guides show such a breadth of sympathy and such a capacity for understanding the ascendant creatures that we are convinced they have gained this culture by actual service in the superuniverse realms as the Havona Servitals of universal ministry; if this view is not correct, how then can we account for the continuous disappearance of the senior or more experienced servitals?

HAVONA SERVITALS

SUBCLASS:	1 of The Messenger Hosts of Space

POPULATION:	“prodigious” and increasing
<i>The Urantia Book</i> :	Paper 25-1

These "midway creatures" of the central universe [U.B. page 273] engage in an endless variety of activities in connection with the work of these educational worlds comprising the superuniversities of the superuniverse of Orvonton; also serve on the study worlds encircling the headquarters spheres of the seven superuniverses, the worlds devoted to the final training and spiritual culture of the ascending souls of time who are preparing for advancement to the circuits of Havona [U.B. page 274]; every fourth servital is more physical in type than the others; that is, out of each thousand, seven hundred and fifty are apparently true to spirit type, but two hundred and fifty are semi-physical in nature; these fourth creatures are somewhat on the order of material beings (material in the Havona sense), resembling the physical power directors more than the Master Spirits [U.B. page 273]; both spirit servitals and their more physical fellows are also designated assistants and associates of the Graduate Guides in helping and instructing the various orders of ascending creatures who have attained Havona, and who seek to attain Paradise; on superuniverse service they serve only on the educational worlds surrounding the capitols of the seven superuniverses; here they are your companions, they have come down from your next career to study you and to inspire you with the reality and certainty of your eventual graduation from the universes of time to the realms of eternity; and in these contacts the servitals gain that preliminary experience of ministering to the ascending creatures of time which is so helpful in their subsequent work on the Havona circuits as associates of the Graduate Guides or--as translated servitals--as Graduate Guides themselves. UNIVERSE CONCILIATORS

SUBCLASS: 2 of The Messenger Hosts of Space
OFFSPRING OF: Infinite Spirit
PRINCIPLE REALM: Superuniverses
POPULATION: Seven times the number of Havona Servitals
The Urantia Book: Paper 25-2

Traversing space at the seraphic rate of triple velocity, they serve as the traveling courts of the worlds, commissions devoted to the quick adjudication of minor difficulties; were it not for these mobile and eminently fair commissions, the tribunals of the spheres would be hopelessly overspread with the minor misunderstandings of the realms; they do not pass upon matters of eternal import; the soul, the eternal prospects of a creature of time, is never placed in jeopardy by their acts; Conciliators do not deal with questions extending beyond the temporal existence and the cosmic welfare of the creatures of time, but when a commission has once accepted jurisdiction of a problem, its rulings are final and always unanimous; there is no appeal; the order of conciliators is wholly dependable; not one has ever gone astray; though not infallible in wisdom and judgment, they are of unquestioned reliability and unerring in faithfulness; in superuniverse service they advance through seven levels of universe service; the order of conciliators is wholly dependable; not one has ever gone astray.

Legal and technical minds of the spirit world, chosen for such work because of their expertness in the concept of universal law and supreme justice [U.B. page 279]; these advisers are more than legal experts; they are students and teachers of *applied* law, the laws of the universe applied to the lives and destinies of all who inhabit the vast domains of the far-flung creation; as time passes, they become the living law libraries of time and space, preventing endless trouble and needless delays by instructing the personalities of time regarding the forms and modes of procedure most acceptable to the rulers of eternity; they are able so to counsel the workers of space as to enable them to function in harmony with the requirements of Paradise; they are the teachers of all creatures concerning the technique of the Creators; Technical Advisers are dedicated to the work of preventing delay, facilitating progress, and counseling achievement; there is always a best and right way to do things; there is always the technique of perfection, a divine method, and these advisers know how to direct us all in the finding of this better way; besides counseling regarding legal usages, Technical Advisers are equally devoted to the efficient interpretation of all laws concerning creature beings--physical, mindal, and spiritual; they are available to the Universal Conciliators and to all others who desire to know the truth of law; in other words, to know how the Supremacy of Deity may be depended upon to react in a given situation having factors of an established

physical, mindal, and spiritual order; they even essay to elucidate the technique of the Ultimate [U.B. page 280]; there is no known limit to the domain of their service, neither has any been placed upon their progress; they continue as advisers even to the portals of Paradise; the whole universe of law and experience is open to them. Keepers of the formal archives of the Isle of Light, those archives which stand in contrast to the living records of registry in the minds of the custodians of knowledge, sometimes designated the "living library of Paradise"; every occurrence of significance in the organized and inhabited creation is a matter of record; while events of no more than local importance find only a local recording, those of wider significance are dealt with accordingly.

Recorders who execute all records in duplicate, making an original spirit recording and a semi-material counterpart--what might be called a carbon copy; this they can do because of their peculiar ability simultaneously to manipulate both spiritual and material energy; make their records always available to all classes of beings, from those of the material order to the high spirits of light; in your transition experience, as you ascend from this material world, you will always be able to consult the records of, and to be otherwise conversant with, the history and traditions of your status sphere [U.B. page 281]; they are a tested and tried corps; never has there been discovered a falsification in their records; they are subjected to a dual inspection, their records being scrutinized by their exalted fellows from Uversa and by the Mighty Messengers, who certify to the correctness of the quasi-physical duplicates of the original spirit records. OFFSPRING OF: Local Universe Mother Spirit
PRINCIPLE REALM: Morontia Training Worlds
POPULATION: 70 billion in Nebadon
The Urantia Book: Paper 25-7 and Paper 48-3

Friends and associates of all who live the ascending morontia life; they are not indispensable to an ascender's real work of creature progression, neither do they in any sense displace the work of the seraphic guardians who often accompany their mortal associates on the Paradise journey; the Morontia Companions are simply gracious hosts to those who are just beginning the long inward ascent; they are also skillful play sponsors and are ably assisted in this work by the reversion directors [U.B. page 282]; there are two distinct types of Morontia Companions; one type is aggressive, the other retiring, but otherwise they are equal in status; they are not sex creatures, but they manifest a touchingly beautiful affection for one another [U.B. page 545]; the Morontia Companions are destined to function increasingly in association with the Finaliters and in numerous other realms not at present revealed on Urantia [U.B. page 547]; the nature of the work in a local system may be derived from the following seven classifications:

1. Pilgrim Guardians

SUBCLASS: 1 of Morontia Companions
OFFSPRING OF: Local Universe Mother Spirit
PRINCIPLE REALM: Morontia Training Worlds
POPULATION: Not revealed
The Urantia Book: Paper 48-3, p.545

Not assigned to specific duties in their association with the Morontia progressors, these companions are responsible for the whole of the Morontia career and are therefore the coordinators of the work of all other Morontia and transition ministers.

2. Pilgrim Receivers and free Associators

SUBCLASS: 2 of Morontia Companions
OFFSPRING OF: Local Universe Mother Spirit
PRINCIPLE REALM: Morontia Training Worlds
POPULATION: Not revealed
The Urantia Book: Paper 48-3, p.546

Social companions of the new arrivals on the mansion worlds; one of them will certainly be on hand to welcome you when you awaken on the initial mansion world; companions are not assigned permanently to individuals; an ascending mortal on one of the mansion or higher worlds might have a different companion on each of several successive occasions and again might go for long periods without one; it would all depend on the requirements and also on the supply of companions available.

3. Hosts to Celestial Visitors

SUBCLASS: 3 of Morontia Companions
OFFSPRING OF: Local Universe Mother Spirit
PRINCIPLE REALM: Morontia Training Worlds
POPULATION: Not revealed
The Urantia Book: Paper 48-3, p.546

Dedicated to the entertainment of the superhuman groups of student visitors and other celestials who may chance to sojourn on the transition worlds; you will have ample opportunity to visit within any realm you have experientially attained; student visitors are allowed on all inhabited planets, even those in isolation.

4. Coordinators and liaison Director

SUBCLASS: 4 of Morontia Companions
OFFSPRING OF: Local Universe Mother Spirit
PRINCIPLE REALM: Morontia Training Worlds
POPULATION: Not revealed
The Urantia Book: Paper 48-3, p. 546

Dedicated to the facilitation of morontia intercourse and to the prevention of confusion; they are the instructors of social conduct and morontia progress, sponsoring classes and other group activities among the ascending mortals; they maintain extensive areas wherein they assemble their pupils and from time to time make requisition on the celestial artisans and the reversion directors for the embellishment of their programs; as you progress, you will come in intimate contact with these companions, and you will grow exceedingly fond of both groups; it is a matter of chance as to whether you will be associated with an aggressive or a retiring type of companion.

5. Interpreters and Translators

SUBCLASS: 5 of Morontia Companions
OFFSPRING OF: Local Universe Mother Spirit
PRINCIPLE REALM: Morontia Training Worlds
POPULATION: Not revealed
The Urantia Book: Paper 48-3, p. 546

During the early Mansonia career you will have frequent recourse to the interpreters and the translators; they know and speak all the tongues of a local universe; they are the linguists of the realms; you will not acquire new languages automatically; you will learn a language over there much as you do down here, and these brilliant beings will be your language teachers; the first study on the mansion worlds will be the tongue of Satania and then the language of Nebadon; and while you are mastering these new tongues, the Morontia Companions will be your efficient interpreters and patient translators.

6. Excursion and Reversion Supervisors

SUBCLASS: 6 of Morontia Companions
OFFSPRING OF: Local Universe Mother Spirit
PRINCIPLE REALM: Morontia Training Worlds
POPULATION: Not revealed
The Urantia Book: Paper 48-3, p.546

These companions will accompany you on the longer trips to the headquarters sphere and to the surrounding worlds of transition culture; they plan, conduct, and supervise all such individual and group tours about the system worlds of training and culture.

7. Area and Building Custodians

SUBCLASS: 7 of Morontia Companions
OFFSPRING OF: Local Universe Mother Spirit
PRINCIPLE REALM: Morontia Training Worlds
POPULATION: Not revealed
The Urantia Book: Paper 48-3, p. 546

The material and Morontia structures increase in perfection and grandeur as you advance in the Mansonia career; as individuals and as groups you are permitted to make certain changes in the abodes assigned as headquarters for your sojourn on the different mansion worlds; the majority of the mansion world structures are roofless, being enclosures of magnificent construction and exquisite embellishment.

PARADISE COMPANIONS

SUBCLASS:	7 of The Messenger Hosts of Space
OFFSPRING OF:	Local Universe Mother Spirit (selected from Seraphim, Seconaphim, Supernaphim, and Omniaphim)
PRINCIPLE REALM:	Paradise
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 25-8

Dedicated to the service of companionship and are assigned as associates to all classes of beings who may chance to be alone on Paradise, chiefly to the ascendant mortals but also to all others who are alone on the central Isle; Paradise Companions have nothing especial to accomplish in behalf of those with whom they fraternize; they are simply companions; almost every other being you mortals will encounter during your Paradise sojourn--aside from your fellow pilgrims--will have something definite to do with you or for you; but these companions are assigned only to be with you and to commune with you as personality associates; the Creators well know that it is "not good for man to be alone," [U.B. page 283]; Paradise Companions are assigned in order of waiting except that an ascender is never placed in the charge of a companion whose nature is unlike his superuniverse type; if an ascending mortal should reach the central universe alone and, while traversing Havona, should fail in some phase of the Deity adventure, in due course he would be remanded to the universes of time, and forthwith a call would be made to the reserves of the Paradise Companions; one of this order would be assigned to follow the defeated pilgrim, to be with him and to comfort and cheer him, and to remain with him until he returned to the central universe to resume the Paradise ascent. THE MINISTERING SPIRITS OF THE CENTRAL UNIVERSE

(3 Subclasses)

THE URANTIA BOOK: Paper 26

PRIMARY SUPERNAPHIM

(7 Subclasses)

SUBCLASS: 1 of The Ministering Spirits of the Central Universe
OFFSPRING OF: Infinite Spirit
PRINCIPLE REALM: Paradise
POPULATION: Not revealed
The Urantia Book: Paper 27

Angels of the eternal Isle who are highly efficacious in furthering the essential training of certain groups of the Paradise Citizens and the ever-enlarging corps of ascendant pilgrims; contribute much that is helpful to the mutual understanding of these two unique orders of universe creatures--the one being the highest type of divine and perfect will creature, and the other, the perfected evolution of the lowest type of will creature in all the universe of universes [U.B. page 287]; the roll calls are complete from eternity, and never have they been known to depart from the paths of light and righteousness; primary Supernaphim are also placed in command of the seraphic hosts ministering on worlds isolated because of rebellion; from eternity the primary Supernaphim have served on the Isle of Light and have gone forth on missions of leadership to the worlds of space, but they have functioned as now classified only since the arrival on Paradise of the Havona pilgrims of time [U.B. page 298]; these high angels now minister chiefly in the following seven orders of service:

1. Conductors of Worship

SUBCLASS: 1 of Primary Supernaphim
OFFSPRING OF: Infinite Spirit
PRINCIPLE REALM: Paradise
POPULATION: Not revealed
The Urantia Book: Paper 27-7

Conduct the periodic, spontaneous, group, and other special outbursts of supreme adoration and spiritual praise enjoyed on Paradise, where such homage achieves the creature goal of supreme pleasure and attains the heights of the perfection of sublime self-expression and personal enjoyment; the conductors of worship open up new and hitherto unknown avenues of expression so that the children of the womb of space and the travail of time are enabled to gain the full satisfactions of worship in much less time than would otherwise be required; *worship is the highest joy of Paradise existence*, it is the refreshing play of Paradise; what play does for your jaded minds on earth, worship will do for your perfected souls on Paradise; the mode of worship on Paradise is utterly beyond mortal comprehension.

2. Masters of Philosophy

SUBCLASS:	2 of Primary Supernaphim
OFFSPRING OF:	Infinite Spirit
PRINCIPLE REALM:	Paradise
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 27-6 and see below

The "wise men of heaven," who make use of the truth of knowledge and the facts of experience in their efforts to master the unknown; they lead the minds of its inhabitants, both native and ascendant, in the exhilarating pursuit of attempting to solve universe problems [U.B. page 302]; at the southern extremity of the vast Paradise domain the masters of philosophy conduct elaborate courses in the seventy functional divisions of wisdom; here they discourse upon the plans and purposes of Infinity and seek to co-ordinate the experiences, and to compose the knowledge, of all who have access to their wisdom; these Paradise philosophers teach by every possible method of instruction, including the higher graph technique of Havona and certain Paradise methods of communicating information; all of these higher techniques of imparting knowledge and conveying ideas are utterly beyond the comprehension capacity of even the most highly developed human mind; when you have listened to these primary Supernaphim discourse upon the unsolved problems of eternity and the performances of the Absolutes, you will feel a certain and lasting satisfaction concerning these unmastered questions. [U.B. page 303]

3. Custodians of Knowledge

SUBCLASS:	3 of Primary Supernaphim
OFFSPRING OF:	Infinite Spirit
PRINCIPLE REALM:	Paradise
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 27-5 and see below

The higher "living epistles" known and read by all who dwell on Paradise; they are the divine records of truth, the living books of real knowledge; you have heard about records in the "book of life"; the custodians of knowledge are just such living books, records of perfection imprinted upon the eternal tablets of divine life [U.B. page 301]; they are in reality living, automatic libraries; the facts of the universes are inherent in these primary Supernaphim, actually recorded in these angels; and it is also inherently impossible for an untruth to gain lodgment in the minds of these perfect beings; the custodians are also the exalted teachers of the central universe, freely giving out their living treasures to all beings on any of the Havona circuits, but are accessible to the local creations only by indirection and reflectively. [U.B. page 302]

4. Directors of Conduct

SUBCLASS:	4 of Primary Supernaphim
OFFSPRING OF:	Infinite Spirit
PRINCIPLE REALM:	Paradise
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 27-4

Instruct the new members of Paradise society concerning the usages of the perfect conduct of the high beings and the almost endless array of new situations and unfamiliar usages; notwithstanding all the long preparation therefore and the long journey thereto, Paradise is still inexpressibly strange and unexpectedly new to those who finally attain residential status; proper conduct is essential to progress by way of knowledge, through philosophy, to the spiritual heights of spontaneous worship; there is a divine technique in the approach to Divinity, and the acquirement of this technique must await the pilgrims' arrival on Paradise.

5. Interpreters of Ethics

SUBCLASS:	5 of Primary Supernaphim
OFFSPRING OF:	Infinite Spirit
PRINCIPLE REALM:	Paradise
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 27-3

Ethical awareness is simply the recognition by any individual of the rights inherent in the existence of any and all other individuals; but spiritual ethics far transcends the mortal and even the morontia concept of personal and group relations; ethics has been duly taught and adequately learned by the pilgrims of time in their long ascent to the glories of Paradise; they do not need to be taught ethics, but they do need to have what they have so laboriously learned properly interpreted to them as they are brought face to face with the extraordinary task of contacting with so much that is new; the interpreters of ethics are of inestimable assistance to the Paradise arrivals in helping them to adjust to numerous groups of majestic beings during that eventful period extending from the attainment of residential status to formal induction into the Corps of Mortal Finaliters.

6. Chiefs of Assignment

SUBCLASS:	6 of Primary Supernaphim
OFFSPRING OF:	Infinite Spirit
PRINCIPLE REALM:	Paradise
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 27-2

The angels of assignment have much to do with glorified mortal residents of Paradise before they are admitted to the Corps of the Finality; study and instruction are not the exclusive occupations of Paradise arrivals, service also plays its essential part in the prefinaliter educational experiences of Paradise, and when the ascendant mortals have periods of leisure, they evince a predilection to fraternize with the reserve corps of the superaphic chiefs of assignment; "the original pattern angels", they preside over the organization of all three orders of these angels--primary, secondary, and tertiary; after sustained contact with the mighty intellects of Paradise, it is very restful to visit with the angelic types of mind; they remind the mortals of time of the seraphim with whom they have had such long contact and such refreshing association.

7. Instigators of Rest

SUBCLASS:	7 of Primary Supernaphim
OFFSPRING OF:	Infinite Spirit
PRINCIPLE REALM:	Paradise
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 27-1

The one essential to the enjoyment of Paradise is rest, divine rest; and these instigators of rest are the final instructors who make ready the pilgrims of time for their introduction to eternity; they begin their work on the final attainment circle of the central universe and continue it when the pilgrim awakes from the last transition sleep, the slumber which graduates a creature of space into the realm of the eternal; you enter the rest on the final Havona circuit and are eternally resurrected on Paradise; and as you there spiritually repersonalize, you will immediately recognize the instigator of rest who welcomes you to the eternal shores as the very primary Supernaphim who produced the final sleep on the innermost circuit of Havona.

SECONDARY SUPERNAPHIM

(7 Subclasses)

SUBCLASS: 2 of The Ministering Spirits of the Central Universe
OFFSPRING OF: Seven Master Spirits
PRINCIPLE REALM: Havona
POPULATION: Not revealed
The Urantia Book: Paper 26-4

Ministers to the seven planetary circuits of the central universe, part are devoted to the service of the pilgrims of time, and one half of the entire order is assigned to the training of the Paradise pilgrims of eternity; a pilgrim of space is always tutored by secondary Supernaphim of origin in the Master Spirit who presides over that pilgrim's superuniverse of nativity; there are seven types of these high angels:

1. Pilgrim Helpers

SUBCLASS: 1 of Secondary Supernaphim
OFFSPRING OF: Seven Master Spirits
PRINCIPLE REALM: Seventh Circuit of Worlds
POPULATION: Not revealed
The Urantia Book: Paper 26-5

Beings of quick understanding and broad sympathy who welcome the much-traveled ascenders of space to the central universe; they conduct their work for the ascending mortals in three major divisions: first, the supreme understanding of the Paradise Trinity, second, the spiritual comprehension of the Father-Son partnership, and third, the intellectual recognition of the Infinite Spirit; but long before reaching Havona, these ascendant children of time have learned to feast upon uncertainty, to fatten upon disappointment, to enthuse over apparent defeat, to invigorate in the presence of difficulties, to exhibit indomitable courage in the face of immensity, and to exercise unconquerable faith when confronted with the challenge of the inexplicable; long since, the battle cry of these pilgrims became: "In liaison with God, nothing--absolutely nothing--is impossible".

2. Supremacy Guides

SUBCLASS:	2 of Secondary Supernaphim
OFFSPRING OF:	Seven Master Spirits
PRINCIPLE REALM:	Sixth Circuit of Worlds
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 26-6

Ascenders of space are designated "spiritual graduates" when translated from the seventh to the sixth circle and are placed under the immediate supervision of the supremacy guides; it is in this circle that the ascenders achieve a new realization of Supreme Divinity; no personalized presence of Supremacy is perceptible to the ascenders; in certain respects, new relationships with the Seventh Master Spirit compensate this noncontactability of the Supreme Being; but regardless of our inability to grasp the technique, each ascending creature seems to undergo a transforming growth, a new integration of consciousness, a new spiritualization of purpose, a new sensitivity for divinity, which can hardly be satisfactorily explained without assuming the unrevealed activity of the Supreme Being.

3. Trinity Guides

SUBCLASS:	3 of Secondary Supernaphim
OFFSPRING OF:	Seven Master Spirits
PRINCIPLE REALM:	Fifth Circuit of Worlds
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 26-7

The tireless ministers of the fifth circle of the Havona training of the advancing pilgrims of time and space; the spiritual graduates are here designated "candidates for the Deity adventure" since it is on this circle, under the direction of the Trinity guides, that the pilgrims receive advanced instruction concerning the divine Trinity in preparation for the attempt to achieve the personality recognition of the Infinite Spirit [U.B. page 292]; never would a pilgrim of time find the first approachable person of the Paradise Trinity were it not for the help and assistance of these guides.

4. Son Finders

SUBCLASS:	4 of Secondary Supernaphim
OFFSPRING OF:	Seven Master Spirits
PRINCIPLE REALM:	Fourth Circuit of Worlds
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 26-8

The superaphic ministers to the ascending mortals of the fourth circuit; in addition to the general work of preparing their candidates for a realization of the Trinity relationships of the Eternal Son, these Son finders must so fully instruct their subjects that they will be wholly successful: first, in the adequate spiritual comprehension of the Son, second, in the satisfactory personality recognition of the Son, and third, in the proper differentiation of the Son from the personality of the Infinite Spirit.

5. Father Guides

SUBCLASS:	5 of Secondary Supernaphim
OFFSPRING OF:	Seven Master Spirits
PRINCIPLE REALM:	Third Circuit of Worlds
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 26-9

The older, highly skilled, and most experienced of the superaphic ministers, the Father guides maintain schools of wisdom and colleges of technique wherein all the beings inhabiting the central universe serve as teachers; nothing is neglected which would be of service to a creature of time in this transcendent adventure of eternity attainment; the test of time is almost over; the race for eternity has been all but run; the days of uncertainty are ending; the temptation to doubt is vanishing; the injunction to be perfect has been obeyed; the attainment of the Universal Father is the passport to eternity, notwithstanding the remaining circuits to be traversed.

6. Counselors and Advisors

SUBCLASS:	6 of Secondary Supernaphim
OFFSPRING OF:	Seven Master Spirits
PRINCIPLE REALM:	Second Circuit of Worlds
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 26-10

The instructors of the children of time regarding the career of eternity; the counselors and advisers also serve as the counselors and comforters of the disappointed pilgrims who are unsuccessful in the first effort at Deity attainment, and are advanced from the circle of failure directly to the second circle before they are returned to superuniverse service.

7. Complements of Rest

SUBCLASS: 7 of Secondary Supernaphim
OFFSPRING OF: Seven Master Spirits
PRINCIPLE REALM: First Circuit of Worlds
POPULATION: Not revealed
The Urantia Book: Paper 26-11

Further the education of the ascending pilgrims, especially with regard to the problems of adjustment to the many groups of beings soon to be encountered on Paradise [U.B. page 296]; the complements of rest are not so much concerned with their training as with promoting their understanding association with diverse groups; mortals have received the Paradise command: "Be you perfect, even as your Paradise Father is perfect"; to these trinitized sons of the conjoint corps the supervising Supernaphim never cease to proclaim: "Be you understanding of your ascendant brethren, even as the Paradise Creator Sons know and love them".

TERTIARY SUPERNAPHIM

(7 Subclasses)

SUBCLASS: 3 of The Ministering Spirits of the Central Universe
OFFSPRING OF: Seven Spirits of the Circuits
PRINCIPLE REALM: Havona
POPULATION: Not revealed
The Urantia Book: Paper 26-3

Angelic specialists of the various circuits of Havona, their ministry extends to both the ascending pilgrims of time and the descending pilgrims of eternity; on the billion study worlds of the perfect central creation, your superaphic associates of all orders will be fully visible to you; there you will all be, in the highest sense, fraternal and understanding beings of mutual contact and sympathy; that corps of tertiary Supernaphim which is chiefly assigned to the service of the pilgrims of time is classified as follows:

1. Harmony Supervisors

SUBCLASS: 1 of Tertiary Supernaphim
OFFSPRING OF: Seven Spirits of the Circuits
PRINCIPLE REALM: Havona
POPULATION: Not revealed
The Urantia Book: Paper 26-3, p. 288

It must be apparent that some sort of coordinating influence would be required, even in perfect Havona, to maintain system and to insure harmony in all the work of preparing the

pilgrims of time for their subsequent Paradise achievements; such is the real mission of the harmony supervisors--to keep everything moving along smoothly and expeditiously; originating on the first circuit, they serve throughout Havona, and their presence on the circuits means that nothing can possibly go amiss.

2. Chief Recorders

SUBCLASS: 2 of Tertiary Supernaphim
OFFSPRING OF: Seven Spirits of the Circuits
PRINCIPLE REALM: Havona
POPULATION: Not revealed
The Urantia Book: Paper 26-3, p. 288

Record in triplicate, executing records for the literal files of Havona, for the spiritual files of their order, and for the formal records of Paradise; in addition they automatically transmit the transactions of true-knowledge impart to the living libraries of Paradise, the custodians of knowledge of the primary order of Supernaphim.

3. Broadcasters

SUBCLASS: 3 of Tertiary Supernaphim
OFFSPRING OF: Seven Spirits of the Circuits
PRINCIPLE REALM: Havona
POPULATION: Not revealed
The Urantia Book: Paper 26-3, p. 288

The broadcast receivers and senders of the central creation and the directors of the space reports of all Deity phenomena on Paradise.

4. Messengers

SUBCLASS: 4 of Tertiary Supernaphim
OFFSPRING OF: Seven Spirits of the Circuits
PRINCIPLE REALM: Havona
POPULATION: Not revealed
The Urantia Book: Paper 26-3, p. 288

Bearers of all messages requiring personal transmission, they serve their fellows, the celestial personalities, the Paradise pilgrims, and even the ascendant souls of time.

5. Intelligence Coordinators

SUBCLASS:	5 of Tertiary Supernaphim
OFFSPRING OF:	Seven Spirits of the Circuits
PRINCIPLE REALM:	Havona
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 26-3, p. 289

Wise and sympathetic promoters of fraternal association between the ascending and the descending pilgrims; the intelligence coordinators minister to all the inhabitants of Havona, and especially to the ascenders, by keeping them currently informed regarding the affairs of the universe of universes; these "living newspapers" of Havona are instantly conversant with all information passing over the vast news circuits of the central universe; they secure intelligence by the Havona graph method, which enables them automatically to assimilate as much information in one hour of Urantia time as would require a thousand years for your most rapid telegraphic technique to record.

6. Transport Personalities

SUBCLASS:	6 of Tertiary Supernaphim
OFFSPRING OF:	Seven Spirits of the Circuits
PRINCIPLE REALM:	Havona
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 26-3, p. 289

Take away the disappointed candidates who transiently fail in the Deity adventure; they stand ready to serve all who must come and go in the service of Havona, and who are not space traversers.

7. Reserve Corps

SUBCLASS:	7 of Tertiary Supernaphim
OFFSPRING OF:	Seven Spirits of the Circuits
PRINCIPLE REALM:	Havona
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 26-3, p. 289

The fluctuations in the work with the ascendant beings, the Paradise pilgrims, and other orders of beings sojourning in Havona, make it necessary to maintain these reserves of Supernaphim; they are created without special design and are competent to take up service in the less exacting phases of any of the duties of their superaphic associates of the tertiary order.

THE MINISTERING SPIRITS OF THE SUPERUNIVERSES

(5 Subclasses)

THE URANTIA BOOK: Paper 28

TERTIAPHIM

SUBCLASS:	1 of The Ministering Spirits of the Superuniverses
OFFSPRING OF:	Infinite Spirit
PRINCIPLE REALM:	Home in Superuniverse Headquarters, assigned to Local Creations
POPULATION:	Not revealed
<i>The Urantia Book</i> :	Paper 28-1

Accompany the Creator Son when he embarks upon the adventure of universe organization; throughout the early times of universe building they serve by the side of the Creator Son until the day of the personalization of the Bright and Morning Star [U.B. page 306]; eventually dedicated to the liaison service of the Creator Sons and the Ancients of Days. [U.B. page 286]

OMNIAPHIM

SUBCLASS:	2 of The Ministering Spirits of the Superuniverses
OFFSPRING OF:	Infinite Spirit and Seven Supreme Executives
PRINCIPLE REALM:	Grand Universe
POPULATION:	Not revealed
<i>The Urantia Book</i> :	Paper 28-2

Wholly occupied with the oversight of the superuniverses in the interests of administrative co-ordination from the viewpoint of the Seven Supreme Executives; the Orvonton colony of Omniaphim on Uversa receives instructions from, and makes reports to, only the Supreme Executive of Orvonton; they are not directly concerned with the ascendant scheme of mortal progression.

PRIMARY SECONAPHIM

(7 Subclasses)

SUBCLASS: 3 of The Ministering Spirits of the Superuniverses
OFFSPRING OF: Reflective Spirits
PRINCIPLE REALM: Supergovernment
POPULATION: Not revealed
The Urantia Book: Paper 28-4

Living mirrors in the service of the Ancients of Days [U.B. page 307]; the Ancients of Days from their position midway between the inhabited worlds and Paradise--between man and God--can instantly look both ways, hear both ways, and know both ways [U.B. page 308]; think what it means in the economy of a superuniverse to be able to turn, as it were, to a living mirror and therein to see and therewith to hear the certain responses of another being a thousand or a hundred thousand light-years distant and to do all this instantly and unerringly [U.B. page 307]; the primary Seconaphim are found to incline by inherent nature towards seven types of service:

1. Voice of the conjoint Actor

SUBCLASS: 1 of Primary Seconaphim
OFFSPRING OF: Reflective Spirits
PRINCIPLE REALM: Supergovernment
POPULATION: Not revealed
The Urantia Book: Paper 28-4, p. 308

Exhibit a high order of adaptability for understanding and interpreting the mind of the Infinite Spirit to the Ancients of Days and their associates in the supergovernments; this is of great value on the headquarters of the superuniverses, for, unlike the local creations with their Divine Ministers, the seat of a supergovernment does not have a specialized personalization of the Infinite Spirit.

2. Voice of the Seven Master Spirits

SUBCLASS: 2 of Primary Seconaphim
OFFSPRING OF: Reflective Spirits
PRINCIPLE REALM: Supergovernment
POPULATION: Not revealed
The Urantia Book: Paper 28-4, p. 308

Portray the collective natures and reactions of the Seven Master Spirits; though each Master Spirit is already represented on a superuniverse capital by some one of the seven Reflective Spirits of assignment, such representation is individual, not collective; collectively, they are only reflectively present.

3. Voice of the Creator Sons

SUBCLASS:	3 of Primary Seconaphim
OFFSPRING OF:	Reflective Spirits
PRINCIPLE REALM:	Supergovernment
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 28-4, p. 308

If the Ancients of Days would like to know--really know--the attitude of Michael of Nebadon regarding some matter under consideration, they do not have to call him on the lines of space; they need only call for the Chief of Nebadon Voices, who, upon request, will present the Michael Seconaphim of record; and right then and there the Ancients of Days will perceive the voice of the Master Son of Nebadon; no other order of sonship is thus "reflectible," and no other order of angel can thus function; we do not fully understand just how this is accomplished, and I doubt very much that the Creator Sons themselves fully understand it, but of a certainty we know it works, and that it unfailingly works acceptably we also know, for in all the history of Uversa the secoraphic voices have never erred in their presentations.

4. Voice of the Angelic Hosts

SUBCLASS:	4 of Primary Seconaphim
OFFSPRING OF:	Reflective Spirits
PRINCIPLE REALM:	Supergovernment
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 28-4, p. 309

Peculiarly responsive to the sentiments of all orders of angels, including the Supernaphim above and the seraphim below; thus the attitude of any commanding or supervising angel is immediately available for consideration at any council of the Ancients of Days; never a day passes on your world that the chief of seraphim on Urantia is not made conscious of the phenomenon of reflective transference, of being drawn upon from Uversa for some purpose; but unless forewarned by a Solitary Messenger, she remains wholly ignorant of what is sought and of how it is secured.

5. Broadcast Receivers

SUBCLASS:	5 of Primary Seconaphim
OFFSPRING OF:	Reflective Spirits
PRINCIPLE REALM:	Supergovernment
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 28-4, p. 309

There is a special class of broadcast messages which are received only by these primary Seconaphim; while they are not the regular broadcasters of Uversa, they work in liaison with the angels of the reflective voices for the purpose of synchronizing the reflective vision of the Ancients of Days with certain actual messages coming in over the established circuits of universe communication.

6. Transport Personalities

SUBCLASS:	6 of Primary Seconaphim
OFFSPRING OF:	Reflective Spirits
PRINCIPLE REALM:	Supergovernment
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 28-4, p. 310

Carry the pilgrims of time from the headquarters worlds of the superuniverses to the outer circle of Havona; they are the transport corps of the superuniverses, operating inward to Paradise and outward to the worlds of their respective sectors.

7. Reserve Corps

SUBCLASS:	7 of Primary Seconaphim
OFFSPRING OF:	Reflective Spirits
PRINCIPLE REALM:	Supergovernment
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 28-4, p. 310

Seconaphim held in reserve for the unclassified duties and the emergency assignments of the realms; not being highly specialized, they can function fairly well in any of the capacities of their diverse associates, but such specialized work is undertaken only in emergencies; their usual tasks are the performance of those generalized duties of a superuniverse which do not fall within the scope of the angels of specific assignment.

SECONDARY SECONAPHIM

(7 Subclasses)

SUBCLASS: 4 of The Ministering Spirits of the Superuniverses
OFFSPRING OF: Reflective Spirits
PRINCIPLE REALM: Supergovernment
POPULATION: Not revealed
The Urantia Book: Paper 28-5

Seconaphim of the secondary order are no less reflective than their primary fellows; being classed as primary, secondary, and tertiary does not indicate a differential of status or function in the case of Seconaphim; it merely denotes orders of procedure; identical qualities are exhibited by all three groups in their activities; the seven reflective types of secondary Seconaphim are assigned as follows:

1. Voice of Wisdom

SUBCLASS: 1 of Secondary Seconaphim
OFFSPRING OF: Reflective Spirits
PRINCIPLE REALM: Supergovernment
POPULATION: Not revealed
The Urantia Book: Paper 28-5, p. 310

Living, current, replete, and thoroughly reliable concentrations and focalizations of the coordinated wisdom of the universe of universes in perpetual liaison with the living libraries of Paradise, the custodians of knowledge belonging to the primary Supernaphim; to the well-nigh infinite volume of information circulating on the master circuits of the superuniverses, these superb beings are so reflective and selective, so sensitive, as to be able to segregate and receive the essence of wisdom and unerringly to transmit these jewels of mentation to their superiors, the Perfectors of Wisdom; and they so function that the Perfectors of Wisdom not only hear the actual and original expressions of this wisdom but also reflectively see the very beings, of high or lowly origin, who gave voice to it.

2. Soul of Philosophy

SUBCLASS: 2 of Secondary Seconaphim
OFFSPRING OF: Reflective Spirits
PRINCIPLE REALM: Supergovernment
POPULATION: Not revealed
The Urantia Book: Paper 28-5, p. 311

Think of stepping up to a huge living mirror, as it were, but instead of beholding the likeness of your finite and material self, of perceiving a reflection of the wisdom of divinity and the philosophy of Paradise; and if it becomes desirable to "incarnate" this philosophy of perfection, so to dilute it as to make it practical of application to, and assimilation by, the lowly peoples of the lower worlds, these living mirrors have only to turn their faces

downward to reflect the standards and needs of another world or universe; by these very techniques do the Perfectors of Wisdom adapt decisions and recommendations to the real needs and actual status of the peoples and worlds under consideration.

3. Union of Souls

SUBCLASS: 3 of Secondary Seconaphim
OFFSPRING OF: Reflective Spirits
PRINCIPLE REALM: Supergovernment
POPULATION: Not revealed
The Urantia Book: Paper 28-5, p. 311, 312

Reflectors of the ideals and status of ethical relationships; of all the problems in the universe requiring an exercise of the consummate wisdom of experience and adaptability, none are more important than those arising out of the relationships and associations of intelligent beings; whether in human associations of commerce and trade, friendship and marriage, or in the liaisons of the angelic hosts, there continue to arise petty frictions, minor misunderstandings too trivial even to engage the attention of conciliators but sufficiently irritating and disturbing to mar the smooth working of the universe if they were allowed to multiply and continue [U.B. page 311]; the "oil of reconciliation", these are the angels who foster and promote the teamwork of all Orvonton; one of the most important lessons to be learned during your mortal career is teamwork; the spheres of perfection are manned by those who have mastered this art of working with other beings; few are the duties in the universe for the lone servant; the higher you ascend, the more lonely you become when temporarily without the association of your fellows. [U.B. page 312]

4. Heart of Counsel

SUBCLASS: 4 of Secondary Seconaphim
OFFSPRING OF: Reflective Spirits
PRINCIPLE REALM: Supergovernment
POPULATION: Not revealed
The Urantia Book: Paper 28-5, p. 312

Seconaphim of this type are in possession of the facts of space, being selective for such data in the circuits of time; especially are they reflective of the superaphic intelligence coordinators, but they are also selectively reflective of the counsel of all beings, whether of high or low estate.

5. Joy of Existence

SUBCLASS:	5 of Secondary Seconaphim
OFFSPRING OF:	Reflective Spirits
PRINCIPLE REALM:	Supergovernment
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 28-5, p. 312

Reflectively attuned to the superaphic harmony supervisors above and to certain of the seraphim below, but it is difficult to explain just what the members of this interesting group really do; their principal activities are directed toward promoting reactions of joy among the various orders of the angelic hosts and the lower will creatures in a more general manner and in collaboration with the reversion directors, they function as joy clearinghouses, seeking to upstep the pleasure reactions of the realms while trying to improve the humor taste, to develop a superhumor among mortals and angels; they endeavor to demonstrate that there is inherent joy in freewill existence, independent of all extraneous influences; and they are right, although they meet with great difficulty in inculcating this truth in the minds of primitive men.

6. Satisfaction of Service

SUBCLASS:	6 of Secondary Seconaphim
OFFSPRING OF:	Reflective Spirits
PRINCIPLE REALM:	Supergovernment
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 28-5, p. 312,313

These angels are highly reflective of the attitude of the directors of conduct on Paradise, and functioning much as do the Joys of Existence, they strive to enhance the value of service and to augment the satisfactions to be derived there from [U.B. page 312]; and by using the performances of the best to inspire and encourage the mediocre, these Seconaphim contribute immensely to the quality of devoted service in the superuniverses; effective use is made of the fraternal competitive spirit by circulating to any one world information about what the others, particularly the best, are doing; a refreshing and wholesome rivalry is promoted even among the seraphic hosts. [U.B. page 313]

7. Discerner of Spirits

Regardless of the source or channel of information, no matter how meager the evidence at hand, when it is subjected to the reflective scrutiny of the Discerners of Spirits, they will forthwith inform us as to the true motive, the actual purpose, and the real nature of its origin; the Discerners of Spirits carry on these intricate services by virtue of inherent "spiritual insight", thus function intuitively, inherently, and unerringly; when the Universal Censors behold these presentations, they are face to face with the naked soul of the reflected individual, and this very certainty and perfection of portraiture in part explains why the Censors can always function so justly as righteous judges.

TERTIARY SECONAPHIM

(7 Subclasses)

SUBCLASS:	5 of The Ministering Spirits of the Superuniverses
OFFSPRING OF:	Reflective Spirits
PRINCIPLE REALM:	Supergovernment
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 28-6

In the same manner as the primary and secondary Seconaphim, these angels are created serially and in seven reflective types, but these types are not assigned individually to the separate services of the superuniverse administrators; all tertiary Seconaphim are collectively assigned to the Trinitized Sons of Attainment, and these ascendant sons use them interchangeably; the seven types of tertiary Seconaphim are:

1. Significance of Origins

SUBCLASS:	1 of Tertiary Seconaphim
OFFSPRING OF:	Reflective Spirits
PRINCIPLE REALM:	Supergovernment
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 28-6, p. 314

Living ready-reference genealogies of the vast hosts of beings--men, angels, and others; reflective Seconaphim who can instantly portray anything required respecting the genesis of any being; charged with the responsibility of dealing with all issues growing out of the origin of any individual, race, or world; and the significance of origin is the paramount question in all plans for the cosmic advancement of the living creatures of the realm; all relationships and the application of ethics grow out of the fundamental facts of origin; origin is the basis of the relational reaction of the Gods; always does the Conjoint Actor "take note of the man, in what manner he was born".

2. Memory of Mercy

SUBCLASS: 2 of Tertiary Seconaphim
OFFSPRING OF: Reflective Spirits
PRINCIPLE REALM: Supergovernment
POPULATION: Not revealed
The Urantia Book: Paper 28-6, pages: 314, 315

The actual, full and replete, living records of the mercy which has been extended to individuals and races by the tender ministrations of the instrumentalities of the Infinite Spirit in the mission of adapting the justice of righteousness to the status of the realms; the Memory of Mercy discloses the moral debt of the children of mercy--their spiritual liabilities--to be set down against their assets of the saving provision established by the Sons of God; in revealing the Father's pre-existent mercy, the Sons of God establish the necessary credit to insure the survival of all; and then, in accordance with the findings of the Significance of Origins, a mercy credit is established for the survival of each rational creature, a credit of lavish proportions and one of sufficient grace to insure the survival of every soul who really desires divine citizenship; they are a living trial balance, a current statement of your account with the supernatural forces of the realms [U.B. page 314]; mercy is not to be thrust upon those who despise it; mercy is not a gift to be trampled under foot by the persistent rebels of time; nevertheless, though mercy is thus precious and dearly bestowed, your individual drawing credits are always far in excess of your ability to exhaust the reserve if you are sincere of purpose and honest of heart; these ministers teach ascenders how to be truly merciful; there is a great reward of personal satisfaction in being first just, next fair, then patient, then kind; and then, on that foundation, if you choose and have it in your heart, you can take the next step and really show mercy; but you cannot exhibit mercy in and of itself; these steps must be traversed; otherwise there can be no genuine mercy; there may be patronage, condescension, or charity--even pity--but not mercy. [U.B. page 315]

3. Import of Time

SUBCLASS: 3 of Tertiary Seconaphim
OFFSPRING OF: Reflective Spirits
PRINCIPLE REALM: Supergovernment
POPULATION: Not revealed
The Urantia Book: Paper 28-6, p. 315

Time is the one universal endowment of all will creatures; it is the "one talent" entrusted to all intelligent beings; you all have time in which to insure your survival; in the assignment of trusts the counsel of the Imports of Time is invaluable; time is a vital factor in everything this side of Havona and Paradise; in the final judgment before the Ancients of Days, time is an element of evidence; the Imports of Time must always afford testimony to show that every defendant has had ample time for making decisions, achieving choice; you will first encounter these beings on the mansion worlds, and they will there instruct you in the advantageous use of that which you call "time," both in its positive employment, work, and in

its negative utilization, rest; these time evaluators are also the secret of prophecy; the Gods foresee, hence foreknow; but the ascendant authorities of the universes of time must consult the Imports of Time to be able to forecast events of the future.

4. Solemnity of Trust

SUBCLASS: 4 of Tertiary Seconaphim
OFFSPRING OF: Reflective Spirits
PRINCIPLE REALM: Supergovernment
POPULATION: Not revealed
The Urantia Book: Paper 28-6, pages 315, 316

Trust is the crucial test of will creatures; trustworthiness is the true measure of self-mastery, character; these Seconaphim accomplish a double purpose in the economy of the superuniverses: they portray to all will creatures the sense of the obligation, sacredness, and solemnity of trust; at the same time they unerringly reflect to the governing authorities the exact trustworthiness of any candidate for confidence or trust; on Urantia, you grotesquely essay to read character and to estimate specific abilities, but on Uversa we actually do these things in perfection [U.B. page 315]; it is the plan of your superiors to advance you by augmented trusts just as fast as your character is sufficiently developed to gracefully bear these added responsibilities, but to overload the individual only courts disaster and insures disappointment; and the mistake of placing responsibility prematurely upon either man or angel may be avoided by utilizing the ministry of these infallible estimators of the trust capacity of the individuals of time and space. [U.B. page 316]

5. Sanctity of Service

SUBCLASS: 5 of Tertiary Seconaphim
OFFSPRING OF: Reflective Spirits
PRINCIPLE REALM: Supergovernment
POPULATION: Not revealed
The Urantia Book: Paper 28-6, p. 316

Service--purposeful service, not slavery--is productive of the highest satisfaction and is expressive of the divinest dignity; service--more service, increased service, difficult service, adventurous service, and at last divine and perfect service--is the goal of time and the destination of space; but ever will the play cycles of time alternate with the service cycles of progress; and after the service of time there follows the superservice of eternity; during the play of time you should envision the work of eternity, even as you will, during the service of eternity, reminisce the play of time; the universal economy is based on intake and output; throughout the eternal career you will never encounter monotony of inaction or stagnation of personality; progress is made possible by inherent motion, advancement grows out of the divine capacity for action, and achievement is the child of imaginative adventure. But inherent in this capacity for achievement is the responsibility of ethics, the necessity for recognizing that the world and the universe are filled with a multitude of differing types of

beings; all of this magnificent creation, including yourself, was not made just for you; this is not an egocentric universe; the Gods have decreed, "It is more blessed to give than to receive," and said your Master Son, "He who would be greatest among you let him be server of all"; the real nature of any service, be it rendered by man or angel, is fully revealed in the faces of these seconaphic service indicators, the Sanctities of Service; the full analysis of the true and of the hidden motives is clearly shown; these angels are indeed the mind readers, heart searchers, and soul revealers of the universe; mortals may employ words to conceal their thoughts, but these high Seconaphim lay bare the deep motives of the human heart and of the angelic mind.

6. & 7. Secret of Greatness and Soul of Goodness

SUBCLASS:	6 and 7 or Tertiary Seconaphim
OFFSPRING OF:	Reflective Spirits
PRINCIPLE REALM:	Supergovernment
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 28-6, p. 317

The ascending pilgrims having awakened to the import of time, the way is prepared for the realization of the solemnity of trust and for the appreciation of the sanctity of service; while these are the moral elements of greatness, there are also secrets of greatness; when the spiritual tests of greatness are applied, the moral elements are not disregarded, but the quality of unselfishness revealed in disinterested labor for the welfare of one's earthly fellows, particularly worthy beings in need and in distress, that is the real *measure* of planetary greatness; and the *manifestation* of greatness on a world like Urantia is the exhibition of self-control; the great man is not he who "takes a city" or "overthrows a nation," but rather "he who subdues his own tongue"; greatness is synonymous with divinity; God is supremely great and good; greatness and goodness simply cannot be divorced; they are forever made one in God; this truth is literally and strikingly illustrated by the reflective interdependence of the Secret of Greatness and the Soul of Goodness, for neither can function without the other; in reflecting other qualities of divinity, the superuniverse Seconaphim can and do act alone, but the reflective estimates of greatness and of goodness appear to be inseparable; hence, on any world, in any universe, must these reflectors of greatness and of goodness work together, always showing a dual and mutually dependent report of every being upon whom they focalize; greatness cannot be estimated without knowing the content of goodness, while goodness cannot be portrayed without exhibiting its inherent and divine greatness; the estimate of greatness varies from sphere to sphere; to be great is to be Godlike; and since the quality of greatness is wholly determined by the content of goodness, it follows that, even in your present human estate, if you can through grace become good, you are thereby becoming great; the more steadfastly you behold, and the more persistently you pursue, the concepts of divine goodness, the more certainly will you grow in greatness, in true magnitude of genuine survival character.

THE UNIVERSE POWER DIRECTORS

(5 Subclasses)

THE URANTIA BOOK: Paper 29

SUPREME POWER DIRECTORS

SUBCLASS:	1 of The Universe Power Directors
OFFSPRING OF:	Seven Master Spirits
PRINCIPLE REALM:	Peripheral Paradise
POPULATION:	7, stationary
<i>The Urantia Book</i> :	Paper 29-1

The physical-energy regulators of the grand universe, they are semi-material beings, but even these quasi-physical beings would be invisible to the short-range vision of Urantia mortals; they are identical in appearance and function; one cannot be distinguished from another except by that Master Spirit with whom each is in immediate association [U.B. page 320]; along with the Seven Master Spirits, the Seven Supreme Power Directors are the personal repositories of the mind potential and of the power potential of the Supreme Being which he does not, as yet, operate personally [U.B. page 271]; in the present universe age the potential of the Almighty Supreme as overcontroller of the physical power of the Grand Universe appears to be centered in the Seven Supreme Power Directors [U.B. page 1274]; these power directors function singly in the power-energy regulation of the superuniverses but collectively in the administration of the central creation; they are not able, individually, to reproduce themselves [U.B. page 320]; all are endowed with Third-Source personality; beings of high will freedom and action [U.B. page 321], they are forever exempt from apprehension or interference by all the tribunals of all space; neither are they subject to the administrative direction either of the superuniverse government of the Ancients of Days or of the local universe administration of the Creator Sons. [U.B. page 322]

MORONTIA POWER SUPERVISORS

(7 Subclasses)

SUBCLASS:	2 of The Universe Power Directors
OFFSPRING OF:	Local Universe Mother Spirit
PRINCIPLE REALM:	Local System
POPULATION:	1,000 in Local Universe
<i>The Urantia Book</i> :	Paper 48-2

Exclusively concerned with the supervision of those activities which represent a working combination of spiritual and physical or semi-material energies; they are exclusively devoted to the ministry of Morontia progression; not that they so much minister to mortals during the transition experience, but they rather make possible the transition environment for the progressing Morontia creatures; they are the channels of Morontia power which sustain and energize the Morontia phases of the transition worlds; the Morontia Power Supervisors are

able to effect a union of material and of spiritual energies, thereby organizing a Morontia form of materialization which is receptive to the superimposition of a controlling spirit; when you traverse the Morontia life of Nebadon, these same patient and skillful Morontia Power Supervisors will successively provide you with 570 Morontia bodies, each one a phase of your progressive transformation. [U.B. page 542]

1. Circuit Regulators

SUBCLASS: 1 of Morontia Power Supervisors
OFFSPRING OF: Local Universe Mother Spirit
PRINCIPLE REALM: Local System
POPULATION: 400 in Local Universe
The Urantia Book: Paper 48-2, p. 543

Co-ordinate physical and spiritual energy and regulate its flow into the segregated channels of the morontia spheres, and these circuits are exclusively planetary, limited to a single world; the morontia circuits are distinct from, and supplementary to, both physical and spiritual circuits on the transition worlds; these living morontia dynamos seem to transform the everywhere energies of space into those materials which the morontia supervisors weave into the bodies and life activities of the ascending mortals.

2. System Coordinators

SUBCLASS: 2 of Morontia Power Supervisors
OFFSPRING OF: Local Universe Mother Spirit
PRINCIPLE REALM: Local System
POPULATION: 200 in Local Universe
The Urantia Book: Paper 48-2, p. 543

Since each Morontia world has a separate order of morontia energy, it is exceedingly difficult for humans to visualize these spheres; but on each successive transition sphere, mortals will find the plant life and everything else pertaining to the morontia existence progressively modified to correspond with the advancing spiritization of the ascending survivor; and since the energy system of each world is thus individualized, the system coordinators operate to harmonize and blend such differing power systems into a working unit for the associated spheres of any particular group.

3. Planetary Custodians

SUBCLASS: 3 of Morontia Power Supervisors
OFFSPRING OF: Local Universe Mother Spirit
PRINCIPLE REALM: Local System
POPULATION: 100 in Local Universe
The Urantia Book: Paper 48-2, p. 544

Grant material for morontia forms to all ascending creatures who land on the spheres and authorize those changes in creature form which make it possible for an ascender to proceed to the succeeding sphere; after the mansion worlds have been traversed, you will translate from one phase of morontia life to another without having to surrender consciousness; unconsciousness attends only the earlier metamorphoses and the later transitions from one universe to another and from Havona to Paradise.

4. Combined Controllers

SUBCLASS: 4 of Morontia Power Supervisors
OFFSPRING OF: Local Universe Mother Spirit
PRINCIPLE REALM: Local System
POPULATION: 100 in Local Universe
The Urantia Book: Paper 48-2, p. 544

One of these highly mechanical beings is always stationed at the center of each administrative unit of a morontia world; a combined controller is sensitive to, and functional with, physical, spiritual, and morontial energies.

5. Liaison Stabilizers

SUBCLASS: 5 of Morontia Power Supervisors
OFFSPRING OF: Local Universe Mother Spirit
PRINCIPLE REALM: Local System
POPULATION: 100 in Local Universe
The Urantia Book: Paper 48-2, p. 544

Regulators of the morontia energy in association with the physical and spirit forces of the realm; they make possible the conversion of morontia energy into morontia material; the whole morontia organization of existence is dependent on the stabilizers; they slow down the energy revolutions to that point where physicalization can occur.

6. Selective Assorters

SUBCLASS: 6 of Morontia Power Supervisors
OFFSPRING OF: Local Universe Mother Spirit
PRINCIPLE REALM: Local System
POPULATION: 50 in Local Universe
The Urantia Book: Paper 48-2, p. 544

As you progress from one class or phase of a morontia world to another, you must be re-keyed or advance-tuned, and it is the task of the selective assorters to keep you in progressive synchrony with the morontia life; such an adjustment in the mechanism of personality is tantamount to a new creation, notwithstanding that you retain the same morontia form; these progressive changes result in altered reactions to the morontia environment, such as modifications in food requirements and numerous other personal practices; the selective assorters are also of great service in the grouping of morontia personalities for purposes of study, teaching, and other projects; they naturally indicate those who will best function in temporary association.

7. Associate Registrars

SUBCLASS: 7 of Morontia Power Supervisors
OFFSPRING OF: Local Universe Mother Spirit
PRINCIPLE REALM: Local System
POPULATION: 50 in Local Universe
The Urantia Book: Paper 48-2, p. 544

Morontia world recorders who serve in association with the spirit recorders in the supervision and custody of the records and other data indigenous to the morontia creations; the morontia records are available to all orders of personalities; all morontia transition realms are accessible alike to material and spirit beings; as morontia progressors you will remain in full contact with the material world and with material personalities, while you will increasingly discern and fraternize with spirit beings.

SUPREME POWER CENTRES

(7 Subclasses)

SUBCLASS: 3 of The Universe Power Directors
OFFSPRING OF: Seven Master Spirits and Supreme Power Directors
PRINCIPLE REALM: Not revealed
POPULATION: 10 billion in all superuniverses
The Urantia Book: Paper 29-2

These beings of high will freedom and action and exquisite intelligence are endowed with Third-Source personality; the intellect of the power system of the grand universe and the secret of the technique of the mind control of all the vast network of the far-flung functions of the Master Physical Controllers and the Morontia Power Supervisors [U.B. page 321]; outside of Havona the Supreme Power Centers function only on especially constructed (architectural) spheres or on otherwise suitably constituted space bodies; the architectural worlds are so constructed that the living power centers can act as selective switches to directionize, modify, and concentrate the energies of space as they pour over these spheres; they could not so function on an ordinary evolutionary sun or planet [U.B. page 323]; receive the incoming lines of power from the third-order centers of Uversa and relay the down-stepped and modified circuits to the power centers of our constellations and systems; are not, however, concerned with transient and local energy upheavals, such as sun spots and system electric disturbances; light and electricity are not the basic energies of space. [U.B. page 456].

1. Supreme Center Supervisors

SUBCLASS: 1 of Supreme Power Centers
OFFSPRING OF: Seven Master Spirits and Supreme Power Directors
PRINCIPLE REALM: World of Seven Supreme Executives
POPULATION: 7
The Urantia Book: Paper 29-2, p. 321

Regulators of the master energy circuits of the grand universe; the Supreme Power Directors and the Supreme Center Supervisors function both as individuals and conjointly with regard to all cosmic phenomena below the levels of "gravity energy"; when acting in liaison, these fourteen beings are to universe power what the Seven Supreme Executives are to general universe affairs, and what the Seven Master Spirits are to the cosmic mind.

2. Havona Centers

SUBCLASS:	2 of Supreme Power Centers
OFFSPRING OF:	Seven Master Spirits and Supreme Power Directors
PRINCIPLE REALM:	Havona
POPULATION:	1 million
<i>The Urantia Book:</i>	Paper 29-2, p. 321

Before the creation of the universes of time and space, power centers were not required in Havona, but ever since these far-distant times, they have functioned in the central creation, each center having the supervision of a thousand Havona worlds; here in the divine universe there is perfection of energy control, a condition not existing elsewhere; perfection of energy regulation is the ultimate goal of all the power centers and the physical controllers of space.

3. Superuniverse Centers

SUBCLASS:	3 of Supreme Power Centers
OFFSPRING OF:	Seven Master Spirits and Supreme Power Directors
PRINCIPLE REALM:	Superuniverse capitols
POPULATION:	7,000
<i>The Urantia Book:</i>	Paper 29-2, p. 321

All energy is circuited in the Paradise cycle, but the Universe Power Directors *direct* the force-energies of nether Paradise as they find them modified in the space functions of the central and superuniverses, converting and directing these energies into channels of useful and constructive application; there is a difference between Havona energy and the energies of the superuniverses.

4. Local Universe Centers

SUBCLASS:	4 of Supreme Power Centers
OFFSPRING OF:	Seven Master Spirits and Supreme Power Directors
PRINCIPLE REALM:	Local Universe capitols
POPULATION:	100 in Local Universe
<i>The Urantia Book:</i>	Paper 29-2, p. 321

Downstep and otherwise to modify the seven power circuits emanating from superuniverse headquarters, thus making them applicable to the services of the constellations and systems; the local astronomical catastrophes of space are of passing concern to these power centers; they are engaged in the orderly dispatch of effective energy to the subsidiary constellations and systems; these centers are able to provide intensified lanes of energy useful for interplanetary communication between important inhabited points, in contrast to the free space movements of undifferentiated energy.

5. Constellation Centers

SUBCLASS:	5 of Supreme Power Centers
OFFSPRING OF:	Seven Master Spirits and Supreme Power Directors
PRINCIPLE REALM:	Constellation capitols
POPULATION:	10 in C
<i>The Urantia Book:</i>	Paper 29-2, p. 322

Function as energy projectors to the one hundred tributary local systems; from these beings there go forth the power lines for communication and transport and for the energizing of those living creatures who are dependent upon certain forms of physical energy for the maintenance of life; but neither the power centers nor the subordinate physical controllers are otherwise concerned with life as a functional organization.

6. System Centers

SUBCLASS:	6 of Supreme Power Centers
OFFSPRING OF:	Seven Master Spirits and Supreme Power Directors
PRINCIPLE REALM:	System capitols
POPULATION:	1 in Local System
<i>The Urantia Book:</i>	Paper 29-2, p. 322

Dispatch the power circuits to the inhabited worlds of time and space; they co-ordinate the activities of the subordinate physical controllers and otherwise function to insure the satisfactory distribution of power in the local system; the circuit relay between the planets depends upon the perfect co-ordination of certain material energies and upon the efficient regulation of physical power.

7. Unclassified Centers

SUBCLASS:	7 of Supreme Power Centers
OFFSPRING OF:	Seven Master Spirits and Supreme Power Directors
PRINCIPLE REALM:	Not revealed
POPULATION:	1 in Local System
<i>The Urantia Book:</i>	Paper 29-2, p. 322

Function in special local situations but not on the inhabited planets; only those spheres of the most extraordinary energy relationships have power centers of the seventh order acting as universe balance wheels or energy governors, but not one space body in a million harbors such a living power organization.

MASTER PHYSICAL CONTROLLERS

(7 Subclasses)

SUBCLASS: 4 of The Universe Power Directors
OFFSPRING OF: Supreme Power Centers
PRINCIPLE REALM: Grand Universe
POPULATION: Not revealed
The Urantia Book: Paper 29-4

Serve with the power centers throughout the grand universe [U.B. page 456]; the power-energy supervision of the evolutionary inhabited worlds is the responsibility of the Master Physical Controllers [U.B. page 457]; chiefly occupied in the adjustment of basic energies undiscovered on Urantia; these unknown energies are very essential to the interplanetary system of transport and to certain techniques of communication [U.B. page 325]; serve as controllers and directors of the preadjutant mind levels, the levels of non-teachable or mechanical mind, living mind, prior to the appearance of capacity to learn from experience [U.B. page 403]; involved in the formulation of basic evolutionary material life--premind life [U.B. page 730]; are able so to modify the revolutions of the primary units of matter to create Morontia material. [U.B. page 541]

1. Associate Power Directors

SUBCLASS: 1 of Master Physical Controllers
OFFSPRING OF: Supreme Power Centers
PRINCIPLE REALM: Grand Universe
POPULATION: 3 billion in Orvonton
The Urantia Book: Paper 29-4, p. 325

Entrusted with the assignment and dispatch of all orders of the Master Physical Controllers in accordance with the ever-shifting needs of the constantly changing energy status of the realms; they also serve as instructors of all who study the sciences of the techniques of intelligent energy control and transmutation.

2. Mechanical Controllers

SUBCLASS: 2 of Master Physical Controllers
OFFSPRING OF: Supreme Power Centers
PRINCIPLE REALM: Grand Universe
POPULATION: "trillions upon trillions" in Ensa
The Urantia Book: Paper 29-4, p. 325

Directionize the flow of energy and to facilitate its concentration into the specialized currents or circuits; they have much to do with the segregation, directionization, and intensification of the physical energies and with the equalization of the pressures of the interplanetary circuits; the mechanical controllers are expert in the manipulation of twenty-one of the thirty physical energies of space, constituting the power charge of a superuniverse; they are also able to accomplish much towards the management and control of six of the nine more subtle forms of physical energy; by placing these controllers in proper technical relationship to each other and to certain of the power centers, the associate power directors are enabled to effect unbelievable changes in power adjustment and energy control; of all the Master Physical Controllers assigned to the inhabited worlds, the mechanical controllers are by far the most powerful; possessing the living endowment of antigravity in excess of all other beings, each controller has a gravity resistance equaled only by enormous spheres revolving at tremendous velocity [U.B. page 326]; these beings are called mechanical controllers because they are so completely dominated by their superiors, so fully subservient to the will of the associate power directors; nevertheless they are, themselves, very intelligent.

3. Energy Transformers

SUBCLASS: 3 of Master Physical Controllers
 OFFSPRING OF: Seven Supreme Power Centers and Seven Central Supervisors
 PRINCIPLE REALM: Grand Universe
 POPULATION: Almost 1 million in Satania
The Urantia Book: Paper 29-4, p. 327

Planetary inspectors of all departing seraphic transports; insulate the planets against the powerful energy streams passing between gigantic planetary and starry neighbors; they are among the more personal orders of physical controllers [U.B. page 326]; the status of the physical realms seems to undergo a transformation under their skillful manipulation; they can and do change the physical form of the energies of space; with the aid of their fellow controllers they are actually able to change the form and potential of twenty-seven of the thirty physical energies of the superuniverse power charge; that three of these energies are beyond their control proves that they are not instrumentalities of the Unqualified Absolute.

4. Energy Transmitters

SUBCLASS: 4 of Master Physical Controllers
 OFFSPRING OF: Supreme Power Centers
 PRINCIPLE REALM: Planets
 POPULATION: Not revealed
The Urantia Book: Paper 29-4, p. 327

Dispatchers of energy as it is manifested on the individual worlds; when energy is to be diverted to a new circuit, the transmitters deploy themselves in a line along the desired energy

path, and by virtue of their unique attributes of energy-attraction, they can actually induce an increased energy flow in the desired direction; transmitters form skillful liaisons which are effective in rehabilitating the weakening currents of specialized energy passing from planet to planet and from station to station on an individual planet; they can detect currents which are much too feeble to be recognized by any other type of living being; they provide the emergency lines of communication in the local systems and on the individual planets; energy transmitters can function with regard to all forms of communicable perception; they can render a distant scene "visible" as well as a distant sound "audible"; are indispensable to the maintenance of mortal existence on those worlds having an impoverished atmosphere, and they are an integral part of the technique of life on the non-breathing planets.

5. Primary Associators

SUBCLASS: 5 of Master Physical Controllers
OFFSPRING OF: Supreme Power Centers
PRINCIPLE REALM: Planets
POPULATION: Not revealed
The Urantia Book: Paper 29-4, p. 328

Energy conservators and custodians; somewhat as a plant stores solar light, so do these living organisms store energy during times of plus manifestations; they work on a gigantic scale, converting the energies of space into a physical state not known on Urantia; they are also able to carry forward these transformations to the point of producing some of the primitive units of material existence; these beings simply act by their presence; they are in no way exhausted or depleted by this function; they act like living catalytic agents; during seasons of minus manifestations they are empowered to release these accumulated energies; together with their co-workers, the Dissociators, they are the most slavish of all intelligent creatures.

6. Secondary Dissociators

SUBCLASS: 6 of Master Physical Controllers
OFFSPRING OF: Supreme Power Centers
PRINCIPLE REALM: Planets
POPULATION: Not revealed
The Urantia Book: Paper 29-4, p. 328

Compared with the primary Associators, these beings of enormous antigravity endowment are the reverse workers; there is never any danger that the special or modified forms of physical energy on the local worlds or in the local systems will be exhausted, for these living organizations are endowed with the unique power of evolving limitless supplies of energy; they are chiefly concerned with the evolution of a form of energy which is hardly known on Urantia from a form of matter which is recognized still less; they are truly the alchemists of space and the wonder-workers of time.

7. Frandalanks and Chronoldeks

SUBCLASS:	7 of Master Physical Controllers
OFFSPRING OF:	Primary and Secondary Force
PRINCIPLE REALM:	Master Universe Organizers and the Power Directors
POPULATION:	“beyond your numerical concept”
<i>The Urantia Book:</i>	Paper 29-4. p. 328

Living and automatic presence, pressure, and velocity gauges, these living barometers are solely concerned with the automatic and unerring registration of the status of all forms of force-energy; they are to the physical universe what the vast reflectivity mechanism is to the minded universe; the Frandalanks that register time in addition to quantitative and qualitative energy presence are called Chronoldeks.

MASTER FORCE ORGANIZERS

SUBCLASS:	5 of The Universe Power Directors
OFFSPRING OF:	Supreme Power Centers
PRINCIPLE REALM:	Paradise and unorganized space
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 29-5

Manipulators of the primordial or basic space-forces of the Unqualified Absolute; they are nebulae creators; these force organizers transmute primordial force (pre-energy not responsive to direct Paradise gravity) into primary or puissant energy, energy transmuted from the exclusive grasp of the Unqualified Absolute to the gravity grasp of the Isle of Paradise; these beings are neither creators nor creatures.

THE PERSONALITIES OF THE GRAND UNIVERSE

(Seven Courtesy Colonies)

(7 Subclasses)

THE URANTIA BOOK: Paper 30

STAR STUDENTS

SUBCLASS: 1 of the Courtesy Colonies
OFFSPRING OF: Any being may become one
PRINCIPLE REALM: Architectural Worlds
POPULATION: over 1 million on Uversa
The Urantia Book: Page: 339

Study all forms and phases of space material and energy manifestations, and they are just as much interested in force function as in stellar phenomena, nothing in all space escapes their scrutiny; they carry on their work with the aid of a multitude of mechanical instruments and physical appliances; they are also greatly assisted by the Solitary Messengers and other spirit explorers; these celestial astronomers make constant use of the living energy transformers and transmitters, as well as of the reflective personalities, in their work of star study and space survey; except on Paradise, knowledge is not inherent, understanding of the physical universe is largely dependent on observation and research.

CELESTIAL ARTISANS

(7 Subclasses)

SUBCLASS: 2 of the Courtesy Colonies
OFFSPRING OF: Recruited from “certain teacher personalities” and their pupils from Ascending Mortals et. al.
PRINCIPLE REALM: Architectural Worlds of the Constellations
POPULATION: Not revealed
The Urantia Book: Page: See below

Master artists and artisans of the morontia and lower spirit realms; they are the spirits and semispirits who are engaged in morontia embellishment and in spiritual beautification [U.B. page 497]; direct the native Spornagia in this extensive work of botanic decoration and biologic embellishment on the architectural worlds; whereas your artists must resort to inert paint and lifeless marble to portray their concepts, the celestial artisans and the Univitatia more frequently utilize living materials to represent their ideas and to capture their ideals. [U.B. page 492]

1. Celestial Musicians

SUBCLASS:	1 of Celestial Artisans
OFFSPRING OF:	Recruited from “certain teacher personalities” and their pupils from Ascending Mortals et.al.
PRINCIPLE REALM:	Architectural Worlds of the Constellations
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Page: See below

Occupied with the production of celestial harmony by the manipulation of the following spirit forces:

1. Spiritual sound--spirit current interruptions;
2. Spiritual light--the control and intensification of the light of the morontia and spiritual realms;
3. Energy impingements--melody produced by the skillful management of the morontia and spirit energies;
4. Color symphonies--melody of morontia color tones, this ranks among the highest accomplishments of the celestial musicians;
5. Harmony of associated spirits--the very arrangement and association of different orders of morontia and spirit beings produce majestic melodies;
6. Melody of thought--the thinking of spiritual thoughts can be so perfected as to burst forth in the melodies of Havona;
7. The music of space--by proper attunement the melodies of other spheres can be picked up on the universe broadcast circuits.[U.B. page 499]

The best music of Urantia is just a fleeting echo of the magnificent strains heard by the celestial associates of your musicians; while you have assembled some beautiful melodies on Urantia, you have not progressed musically nearly so far as many of your neighboring planets in Satania; the gift of harmony has been diluted by strains of unmusical tendencies.

Preserve thought for reproduction by oratory 503; The oratory of the spirit world is one of the rare treats which await you who have heard only the crude and stumbling orations of Urantia; there is harmony of music and euphony of expression in the orations of Salvington and Edentia which are inspiring beyond description; these burning concepts are like gems of beauty in diadems of glory; but I cannot do it! I cannot convey to the human mind the breadth and depth of these realities of another world!

mission as biologic accelerators, as Adam did on Urantia; and then are they compelled to take the natural course of the peoples of the realm, receive Adjusters, pass through death, and progress by faith through the ascendant regime, subsequently attaining Paradise and the Corps of the Finality.

The Urantia Book: See below

The personalization of the first concept of identity and ideal of personality conceived by the Creator Son and the local universe manifestation of the Infinite Spirit [U.B. page 369]; not a creator, but a marvelous administrator, being the personal administrative representative of the Creator Son [U.B. page 370]; fully representative of both the Creator Son and the Creative Spirit, such a being is also capable of a broad understanding of, and sympathetic contact with, both the spiritual seraphic hosts and the material evolutionary will creatures [U.B. page 369]; the Bright and Morning Star of our universe is known as Gabriel of Salvington, the chief executive of all Nebadon, functioning as the personal representative of the Sovereign Son. [U.B. page 406]

2. Brilliant Evening Stars

SUBCLASS: 2 of Universe Aids
OFFSPRING OF: Creator Son and Creative Spirit; some originate from creature life
PRINCIPLE REALM: Throughout Superuniverse
POPULATION: 13,641 in Nebadon
The Urantia Book: Paper 37-2

Serve in many capacities but chiefly as liaison officers of Gabriel, the local universe chief executive; Gabriel cannot be in two places at the same time, and these superangels compensate for this limitation; they perform an analogous service for the corps of the Trinity Teacher Sons; though personally occupied with administrative duties, Gabriel maintains contact with all other phases of universe life and affairs through the Brilliant Evening Stars; always accompany him on his planetary tours and frequently go on special missions to the individual planets as his personal representatives; they frequently go to Uversa to represent

the Bright and Morning Star before the courts and assemblies of the Ancients of Days; are easily visible to morontia personalities and certain types of supermortal material beings; not extensively assigned on missions pertaining to the ascendant career of mortals; they always work in pairs--one a created being, the other an ascendant Evening Star. [U.B. page 407]; frequently serve as teachers in the various educational enterprises of the universe, including those sponsored by the Melchizedeks. [U.B. page 517]

3. Archangels

SUBCLASS: 3 of Universe Aids
OFFSPRING OF: Creator Son and Creative Spirit
PRINCIPLE REALM: Not revealed
POPULATION: Almost 800,000 in Nebadon
The Urantia Book: Paper 37-3

Dedicated to the work of creature survival and to the furtherance of the ascending career of the mortals of time and space [U.B. page 408]; in general, the archangels are assigned to the service and ministry of the Avonal order of sonship; a corps of one hundred accompanies every Paradise bestowal Sons on all planetary missions, whether involving judicial actions, magisterial missions, or bestowal incarnations [U.B. page 409]; they are the highest type of high spirit being produced in large numbers in a local universe, and one of the few groups of local universe personalities who are not normally under the jurisdiction of Gabriel [U.B. page 408]; when a Paradise Son has finished the judgment of a realm and the dead are called to record (the so-called resurrection), it is literally true that the seraphic guardians of the slumbering personalities respond to "the voice of the archangel"; the roll call of a dispensation termination is promulgated by an attendant archangel; this is the archangel of the resurrection. [U.B. page 409]

4. Most High Assistants

SUBCLASS: 4 of Universe Aids
OFFSPRING OF: Of Paradise origin
PRINCIPLE REALM: Local Universes and Constellations
POPULATION: Varies, but in the millions
The Urantia Book: Paper 37-4

Group of volunteering beings, of origin outside the local universe, who are temporarily assigned as central and superuniverse representatives to, or observers of, the local creations [U.B. page 409]; now and then in the transaction of the affairs of a local creation it becomes wise to withhold certain details, temporarily, from the knowledge of practically all of the native personalities, and it is in such situations, and many others, that the Most High Assistants are so highly serviceable to the universe rulers and administrators. [U.B. page 410]

5. High Commissioners

SUBCLASS:	5 of Universe Aids
OFFSPRING OF:	Mortals
PRINCIPLE REALM:	Local Universe
POPULATION:	Slightly over one half billion in Nebadon
<i>The Urantia Book:</i>	Paper 37-5

High Commissioners are Spirit-fused ascendant mortals [U.B. page 410] who will never become Finaliters; they interpret the viewpoints and portray the needs of the various human races and are supremely devoted to their welfare; acting as spokesmen they ever seek to obtain for them mercy, justice and fair treatment in all relationships with other peoples; they begin their careers as race commissioners, functioning in an endless series of planetary crises and serving as the articulate expression of whole groups of struggling mortals; we invariably find these commissioners in all the tribunals of justice, from the lowest to the highest; not that they participate in the proceedings of justice, but they do act as friends of the court; whenever fairness and justice require an understanding of how a contemplated policy or procedure would affect the evolutionary races of time, these commissioners are at hand to present their recommendations; they are always present to speak for those who cannot be present to speak for themselves.

OFFSPRING OF:	Mortals
PRINCIPLE REALM:	Local Universe
POPULATION:	3 million in Nebadon
<i>The Urantia Book:</i>	Paper 37-6

Effect the maintenance and upbuilding of the Nebadon educational system; fundamentally, the Nebadon educational system provides for your assignment to a task and then affords you opportunity to receive instruction as to the ideal and divine method of best performing that task; you are given a definite task to perform, and at the same time you are taught how best to execute the things commanded of you [U.B. page 412]; before leaving the universe of Nebadon, most Urantia mortals will be afforded opportunity to serve for a longer or shorter time as members of the Nebadon corps of Celestial Overseers. [U.B. page 413]

7. Mansion World Teachers

SUBCLASS:	7 of Universe Aids
OFFSPRING OF:	(Recruited Glorified Seraphim)
PRINCIPLE REALM:	Material worlds to highest universe training worlds
POPULATION:	Beyond mortal comprehension
<i>The Urantia Book:</i>	Paper 37-7

These are Cherubim and Sanobim who were helpers to seraphic guardians of destiny; the guardians of destiny desert these helpers when their mortal wards attain the morontia life [U.B. page 423]; they are by nature very near the morontia type of existence, and they are inherently sympathetic teachers of the ascending mortals and most efficiently conduct the program of the mansion world and morontia educational system [U.B. page 550]; those things which you might have learned on earth, but which you failed to learn, must be acquired under the tutelage of these faithful and patient teachers; there are no royal roads, short cuts, or easy paths to Paradise; one of the purposes of the morontia career is to effect the permanent eradication from the mortal survivors of such animal vestigial traits as procrastination, equivocation, insincerity, problem avoidance, unfairness, and ease seeking [U.B. page 551]; children of time, including those who have died on the evolutionary worlds of space before the acquirement of individual status on the universe records are delivered into the hands of the Mansion World Teachers in the probationary nurseries of the morontia worlds. 2. Univitatia

SUBCLASS:	2 of Permanent Citizens
OFFSPRING OF:	Creator Son and Creative Spirit
PRINCIPLE REALM:	Constellation headquarters
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Page: see below

Spiritually, the Univitatia are alike; intellectually, they vary as do mortals; they are created to function in seventy diverse orders of personality; each of these orders of Univitatia exhibits ten major variations of intellectual activity, and each of these varying intellectual types presides over the special training and cultural schools of progressive occupational or practical socialization on some one of the ten satellites which swing around each of the major Edentia worlds; these training schools of special skill and technical knowledge are not conducted exclusively for ascending mortals, although Morontia students constitute by far the largest group of all those who attend these courses of training; Univitatia are projected on a plane of existence in between the material and the spiritual, but they are not Morontia creatures; in all Orvonton no extra-Havona beings excepting the Uversa Abandoners can equal the Univitatia in artistic skill, social adaptability, and coordinating cleverness [U.B. page 493]; you will so earnestly explore the truths of fraternity, and the actual experience of living with the Univitatia in the social laboratories of Edentia. [U.B. page 433]

3. Material Sons

SUBCLASS:	3 of Permanent Citizens
OFFSPRING OF:	Creator Son
PRINCIPLE REALM:	Planets and Local System capitols
POPULATION:	161,432,840, increasing on the Local System capitols in Nebadon
<i>The Urantia Book:</i>	Page: see below

On the capital of each local system the Material Sons and Daughters of God portray the height of the ideals of the union of man and woman in the bonds of marriage and for the purpose of procreating and rearing offspring [U.B. page 930]; on a planetary mission they are biologic uplifters [U.B. page 444] commissioned to found the Adamic race of that world [U.B. page 415]; the highest type of sex-reproducing beings to be found on the training spheres of the evolving universes, and the last and physical link in the chain of personalities extending from divinity and perfection above down to humanity and material existence below; personal deprivations of sex-deficient mortals are enabled to compensate the social, intellectual, emotional, and spiritual aspects of their deficiency in the families of the Material Sons and Daughters [U.B. page 515]; they certify to the achievement of Mota personality in mortals desiring to advance beyond the system headquarters [U.B. page 518]; all children on the evolving worlds who have Thought Adjusters, but who before death had not made a choice concerning the Paradise career, grow up in the families of the Material Sons and their associates as do those little ones who arrived without Adjusters, but who will subsequently receive the Mystery Monitors after attaining the requisite age of moral choice. [U.B. page 532]

4. Midway Creatures

SUBCLASS:	4 of Permanent Citizens
OFFSPRING OF:	Staff of Planetary Prince or the progeny of Material Sons
PRINCIPLE REALM:	Planets
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Page: see below

In the early days of most inhabited worlds, certain superhuman but materialized beings are of assignment, but they usually retire upon the arrival of the Planetary Adams; the transactions of such beings and the efforts of the Material Sons to improve the evolutionary races often result in the appearance of a limited number of creatures who are midway between the Material Sons and the evolutionary creatures; hence their designation, midway creature [U.B. page 415]; Primary Midwayers, the more spiritual group, are a somewhat standardized order of beings who are uniformly derived from the modified ascendant-mortal staffs of the Planetary Princes; Secondary Midwayers, the more material group of these creatures, vary greatly in numbers on the different worlds, though the average is around fifty thousand; they are variously derived from the planetary biologic uplifters, the Adams and Eves, or from their immediate progeny; Primary Midwayers resemble angels more than mortals; the secondary orders are much more like human beings [U.B. page 424]; on normal worlds the primary Midwayers maintain their service as the intelligence corps and as celestial entertainers in behalf of the Planetary Prince, while the secondary ministers continue their co-operation with the Adamic regime of furthering the cause of progressive planetary civilization [U.B. page 425]; soon after an evolutionary planet has attained the intermediate epochs of light and life (if not before), both groups of midway creatures are released from planetary duty [U.B. page 444]; the Spornagia on Jerusem are now largely directed by the ascending midway creatures from the evolutionary spheres [U.B. page 528]; the midway culture, being the product of an immortal planetary citizenry, is relatively immune to those temporal vicissitudes which beset human civilization; the generations of men forget; the corps of Midwayers remembers, and that memory is the treasure house of the traditions of your inhabited world. [U.B. page 866]

SUBCLASS: 2 of Others
OFFSPRING OF: (not revealed, but are bisexual and can reproduce)
PRINCIPLE REALM: Local Universe headquarters worlds

Neither spirits nor persons; they are an animal order of existence, but if you could see them, you would agree that they seem to be perfect animals; devoted to the care, culture, and physical upkeep of the material phases of these headquarters worlds from Jerusem to Salvington [U.B. page 416]; directed by the celestial artisans in the extensive work of monumental memorials [U.B. page 526], botanic ecoration, and biologic embellishment [U.B. page 492]; Spornagia afford physical ministry to all orders of universe personalities requiring material service; not Adjuster indwelt; they do not possess survival souls, but they do enjoy long lives, sometimes to the extent of forty to fifty thousand standard years; they do not have personality, nevertheless, they do evolve an individuality which can experience reincarnation, and are the only creatures in all the universe of Nebadon who experience reincarnation; they are only reactive to the first five of the adjutant mind-spirits; they are not responsive to the spirits of worship and wisdom, but the five-adjutant mind equivalates to a totality or sixth reality level, and it is this factor which persists as an experiential identity. Guide the new citizens of the system capitals and quicken their appreciation of the responsibilities of universe government; these seraphim are also closely associated with the Material Sons in the system administration, while they portray the responsibility and morality of cosmic citizenship to the material mortals on the inhabited worlds; ever and anon there is a pause in the Paradise ascent, a short breathing spell, during which universe horizons stand still, creature status is stationary, and the personality tastes the sweetness of goal fulfillment; the first of such periods in the career of a mortal ascender occurs on the capital of a local system.

Quicken your appreciation of cosmic morality--of the interactions of liberty and loyalty--the fruit of an intelligent appreciation of universe brotherhood; one could not take so much and give nothing; as you ascend the personality scale, first you learn to be loyal, then to love, then to be filial, and then may you be free; these seraphim teach the fruitfulness of patience, that stagnation is certain death, but that overrapid growth is equally suicidal; that as a drop of water from a higher level falls to a lower and, flowing onward, passes ever downward through a succession of short falls, so ever upward is progress in the morontia and spirit worlds--and just as slowly and by just such gradual stages; it is not so much what you learn in this first life; it is the experience of living this life that is important; even the work of this world, paramount though it is, is not nearly so important as the way in which you do this work; the keys of the kingdom of heaven are: sincerity, more sincerity, and more sincerity; all men have these keys; men use them--advance in spirit status--by decisions, by more decisions, and by more decisions.

a) Voices of the Garden

SUBCLASS: 1 of Planetary Helpers
OFFSPRING OF: Not revealed
PRINCIPLE REALM: Not revealed
POPULATION: Not revealed
The Urantia Book: Page: 437-1

Personal seraphim of the planetary Adams and Eves; after the Adamic default on Urantia, some of these seraphim were left on the planet and were assigned to Adam's successors in authority.

b) Spirits of Brotherhood

SUBCLASS: 2 of Planetary Helpers
OFFSPRING OF: Not revealed
PRINCIPLE REALM: Not revealed
POPULATION: Not revealed
The Urantia Book: Page: 437-2

Assist the Adams and Eves in the task of achieving racial harmony and social co-operation among diverse planetary races; seldom do these races of different colors and varied natures take kindly to the plan of human brotherhood; these primitive men only come to realize the wisdom of peaceful interassociation as a result of ripened human experience and through the faithful ministry of the seraphic spirits of brotherhood.

c) Souls of Peace

SUBCLASS:	3 of Planetary Helpers
OFFSPRING OF:	Not revealed
PRINCIPLE REALM:	Not revealed
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Page: 437-3

The worlds first realize "peace on earth and good will among men" through the ministry of the seraphic souls of peace; the early millenniums of the upward strivings of evolutionary men are marked by many a struggle, and peace is not the natural state of the material realms; in the more advanced epochs of planetary evolution these seraphim are instrumental in supplanting the atonement idea by the concept of divine attunement as a philosophy of mortal survival

d) Spirits of Trust

SUBCLASS:	4 of Planetary Helpers
OFFSPRING OF:	Not revealed
PRINCIPLE REALM:	Not revealed
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Page: 437-4

Inculcate trust into the minds of evolving men; suspicion is the inherent reaction of primitive men; the survival struggles of the early ages do not naturally breed trust; trust is a new human acquisition brought about by the ministry of these planetary seraphim of the Adamic regime; the Gods are very trustful, the Universal Father is willing freely to trust himself--the Adjuster--to man's association [U.B. page 437]; in the more advanced planetary ages these seraphim enhance man's appreciation of the truth that uncertainty is the secret of contented continuity; they help the mortal philosophers to realize that, when ignorance is essential to success, it would be a colossal blunder for the creature to know the future; they heighten man's taste for the sweetness of uncertainty, for the romance and charm of the indefinite and unknown future.

e) Transporters

SUBCLASS:	5 of Planetary Helpers
OFFSPRING OF:	Not revealed
PRINCIPLE REALM:	Not revealed
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Page 438-5

These are the transport personalities operating from the local planets, as from Urantia to Jerusalem; the majority of enseraphimed beings brought to this planet are in transit, they merely stop over; they are in custody of their own special seraphic transporters, but there are a large number of such seraphim stationed on Urantia.

f) Recorders

SUBCLASS:	6 of Planetary Helpers
OFFSPRING OF:	Not revealed
PRINCIPLE REALM:	Not revealed
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Page 439-6

These are the custodians of the major affairs of the planet as it functions as a part of the system, and as it is related to, and concerned in, the universe government; they function in the recording of planetary affairs but are not concerned with matters of individual life and existence.

g) Reserves

SUBCLASS:	7 of Planetary Helpers
OFFSPRING OF:	Not revealed
PRINCIPLE REALM:	Not revealed
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Page 439-7

Repletely provide for every phase of the manifold activities of this seraphic order; these angels are also the personal message bearers of the local systems; they serve transition mortals, angels, and the Material Sons as well as others domiciled on the system headquarters.

6. Transition Ministers

(7 Subclasses)

SUBCLASS:	6 of Seraphim
OFFSPRING OF:	Not revealed
PRINCIPLE REALM:	Local system
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Page 39-6

a) Seraphic Evangels

SUBCLASS:	1 of Transition Ministers
OFFSPRING OF:	Not revealed
PRINCIPLE REALM:	Not revealed
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Page 552-1

Dedicated to the proclamation of the gospel of eternal progression, the triumph of perfection attainment; on the mansion worlds they proclaim the great law of the conservation and dominance of goodness: no act of good is ever wholly lost; it may be long thwarted but never wholly annulled, and it is eternally potent in proportion to the divinity of its motivation; on the mansion worlds the seraphic evangels will help you to choose wisely among the optional routes to Edentia, Salvington, Uversa, and Havona; if there are a number of equally advisable routes, these will be put before you, and you will be permitted to select the one that most appeals to you.

b) Racial Interpreters

SUBCLASS:	2 of Transition Ministers
OFFSPRING OF:	Not revealed
PRINCIPLE REALM:	Not revealed
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Page 553-2

Further the efforts of the race commissioners to harmonize the varied viewpoints of the races; all races of mortal beings are not alike, and very definite social tendencies characterize the offspring of these different basic types of human beings.

c) Mind Planners

SUBCLASS:	3 of Transition Ministers
OFFSPRING OF:	Not revealed
PRINCIPLE REALM:	Not revealed
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Page 553-3

Devoted to the effective grouping of morontia beings and to organizing their teamwork on the mansion worlds; they are the psychologists of the first heaven; it is the task of the mind planners to study the nature, experience, and status of the Adjuster souls in transit through the mansion worlds and to facilitate their grouping for assignment and advancement; but these mind planners do not scheme, manipulate, or otherwise take advantage of the ignorance or other limitations of mansion world students, they are wholly fair and eminently just; they respect your newborn morontia will; they regard you as independent volitional beings, and they seek to encourage your speedy development and advancement.

d) Morontia Counselors

SUBCLASS:	4 of Transition Ministers
OFFSPRING OF:	Not revealed
PRINCIPLE REALM:	Not revealed
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Page 554-4

Teach, direct, and counsel the surviving mortals from the worlds of human origin; they are the teachers of those who seek insight into the experiential unity of divergent life levels, those who are attempting the integration of meanings and the unification of values; this is the function of philosophy in mortal life, of Mota on the morontia spheres; Mota is more than a superior philosophy, it is to philosophy as two eyes are to one; it has a stereoscopic effect on meanings and values.

e) Technicians

SUBCLASS:	5 of Transition Ministers
OFFSPRING OF:	Not revealed
PRINCIPLE REALM:	Not revealed
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Page 554-5

Help new ascenders adjust themselves to the new and comparatively strange environment of the morontia spheres; life on the transition worlds entails real contact with the energies and materials of both the physical and morontia levels and to a certain extent with spiritual realities; they also serve as emergency space traversers and perform numerous other regular and special duties.

f) Recorder-Teachers

SUBCLASS:	6 of Transition Ministers
OFFSPRING OF:	Not revealed
PRINCIPLE REALM:	Not revealed
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Page 554-6

Recorders of the borderland transactions of the spiritual and the physical, of the relationships of men and angels, of the morontia transactions of the lower universe realms; they also serve as instructors regarding the efficient and effective techniques of fact recording; these angels are all in the chain of recorders extending from the lowest to the highest custodians of the facts of time and the truths of eternity; some day they will teach you to seek truth as well as fact, to expand your soul as well as your mind; even now you should learn to water the garden of your heart as well as to seek for the dry sands of knowledge; forms are valueless when lessons are learned, no chick may be had without the shell, and no shell is of any worth

after the chick is hatched [U.B. page 554]; the fetish of factualized truth, fossilized truth, the iron band of so-called unchanging truth, holds one blindly in a closed circle of cold fact; one can be technically right as to fact and everlastingly wrong in the truth. [U.B. page 555]

g) Ministering Reserves

SUBCLASS:	7 of Transition Ministers
OFFSPRING OF:	Not revealed
PRINCIPLE REALM:	Not revealed
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Page 555-7

Next to the destiny guardians, these transition ministers draw the nearest to humans of all orders of seraphim, and many of your leisure moments will be spent with them; from them you will learn to let pressure develop stability and certainty; to be faithful and earnest and, withal, cheerful; to accept challenges without complaint and to face difficulties and uncertainties without fear; they will ask: If you fail, will you rise indomitably to try anew? If you succeed, will you maintain a well-balanced poise--a stabilized and spiritualized attitude?; even as mortals, so have these angels been father to many disappointments, and they will point out that sometimes your most disappointing disappointments have become your greatest blessings; sometimes the planting of a seed necessitates its death, the death of your fondest hopes, before it can be reborn to bear the fruits of new life and new opportunity; and from them you will learn to suffer less through sorrow and disappointment, first, by making fewer personal plans concerning other personalities, and then, by accepting your lot when you have faithfully performed your duty; you will learn that you increase your burdens and decrease the likelihood of success by taking yourself too seriously; nothing can take precedence over the work of your status sphere--this world or the next; very important is the work of preparation for the next higher sphere, but nothing equals the importance of the work of the world in which you are actually living; but though the work is important, the self is not; when you feel important, you lose energy to the wear and tear of ego dignity so that there is little energy left to do the work; self-importance, not work-importance, exhausts immature creatures; it is the self element that exhausts, not the effort to achieve; you can do important work if you do not become self-important; you can do several things as easily as one if you leave yourself out.

7. Seraphim of the Future

SUBCLASS:	7 of Seraphim
OFFSPRING OF:	Not revealed
PRINCIPLE REALM:	The more advanced planets
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 39-7

Engaged in pursuits relevant to the sometime dawning of the age of light and life in Nebadon (not now directly concerned with either Urantia or Urantians); these seraphim do function in connection with the ascendant-mortal career but minister almost exclusively to those mortals who survive by some one of the modified orders of ascension.

CHERUBIM

SUBCLASS:	2 of Ministering Spirits of the Local Universe
OFFSPRING OF:	Universe Mother Spirit
PRINCIPLE REALM:	Local universe
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 38-7

Routine spirit workers on the individual worlds of the systems [U.B. page 422]; assistants to the seraphim [U.B. page 286]; in all essential endowments cherubim and Sanobim are similar to seraphim; they have the same origin but not always the same destiny; on a nonpersonal assignment and in an emergency, they may serve in the place of a seraphic pair, but they never function, even temporarily, as attending angels to human beings; that is an exclusive seraphic privilege; cherubim and Sanobim are inherently associated, functionally united; one is an energy positive personality; the other, energy negative; the right-hand deflector, or positively charged angel, is the cherubim--the senior or controlling personality; the left-hand deflector, or negatively charged angel, is the Sanobim--the complement of being; each type of angel is very limited in solitary function; hence they usually serve in pairs; cherubim and Sanobim are by nature very near the morontia level of existence, and they prove to be most efficient in the borderland work of the physical, morontial, and spiritual domains [U.B. page 422]; they are to the morontia spheres about what the midway creatures are to the evolutionary planets. [U.B. page 423]

SANOBIM

SUBCLASS: 3 of Ministering Spirits of the Local Universe
OFFSPRING OF: Universe Mother Spirit
PRINCIPLE REALM: Local universe
POPULATION: Not revealed
The Urantia Book: Paper 38-7

Along with cherubim are the faithful and efficient aids of the seraphic ministers; cherubim and Sanobim are inherently associated, functionally united; one is an energy positive personality; the other, energy negative; the right-hand deflector, or positively charged angel, is the cherubim--the senior or controlling personality; the left-hand deflector, or negatively charged angel, is the Sanobim--the complement of being. [For greater detail see Cherubim, above]

ASCENDING SONS OF GOD

THE URANTIA BOOK: Paper 40

FATHER-FUSED MORTALS

SUBCLASS:	1 of Ascending Sons of God
OFFSPRING OF:	Not revealed
PRINCIPLE REALM:	Not revealed
POPULATION:	Not revealed
<i>The Urantia Book</i> :	Paper 40-7

Planetary sons, evolutionary creatures derived from the Life Carrier implantations and modified by the Adamic-life infusion, hardly yet ascending sons while on the material planet of origin; but indeed sons of ascension potential--even to the highest heights of glory and divinity attainment [U.B. page 448]; these are the mortals who have been commanded by the Universal Father, "Be you perfect, even as I am perfect"; the Father has bestowed himself upon us, placed his own spirit within us; therefore does he demand ultimate perfection of us; to the Adjuster-fused mortal the career of universal service is wide open. What dignity of destiny and glory of attainment await every one of us! Do we fully appreciate what has been done for us? Do we comprehend the grandeur of the heights of eternal achievement which are spread out before us? [U.B. page 449]

SON-FUSED MORTALS

SUBCLASS:	2 of Ascending Sons of God
OFFSPRING OF:	Not revealed
PRINCIPLE REALM:	(confined to Superuniverse of nativity)
POPULATION:	Less than 1 million in Orvonton
<i>The Urantia Book</i> :	Paper 40-8

Mortal fusion candidates for never-ending life who have failed to attain identity fusion with their faithful Adjusters; such mortals have been deemed worthy of survival by the adjudicational authorities, and even their Adjusters, by returning from Divinington, have concurred in their ascension to the mansion worlds [U.B. page 449]; they are truly our brethren, and we will greatly enjoy their association as we pass through the training worlds of the superuniverse. [U.B. page 450]

SPIRIT-FUSED MORTALS

SUBCLASS:	3 of Ascending Sons of God
OFFSPRING OF:	Not revealed
PRINCIPLE REALM:	Not revealed
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 40-9

There is one particular in which Spirit-fused mortals differ from their ascendant brethren: mortal memory of human experience on the material worlds of origin survives death in the flesh because the indwelling Adjuster has acquired a spirit counterpart, or transcript, of those events of human life which were of spiritual significance; but with Spirit-fused mortals there exists no such mechanism whereby human memory may persist; the Adjuster transcripts of memory are full and intact, but these acquisitions are experiential possessions of the departed Adjusters and are not available to the creatures of their former indwelling, who therefore awaken in the resurrection halls of the morontia spheres of Nebadon as if they were newly created beings, creatures without consciousness of former existence; spirit-fused mortals are in every way our equals in mind and spirit; and they are indeed our contemporaries, sharing the mansion and morontia spheres in common with our order of fusion candidates and with those who are to be Son fused.

EVOLUTIONARY SERAPHIM

SUBCLASS:	4 of Ascending Sons of God
OFFSPRING OF:	Not revealed
PRINCIPLE REALM:	Not revealed
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 40-1

Guardian seraphim, through experience and service with the ascending mortals of time, also achieve the status of ascendant sonship; such angels attain Paradise through Seraphington, and many are even mustered into the Corps of Mortal Finality; to climb to the supernal heights of Finaliter sonship with God is a masterly achievement for an angel, an accomplishment far transcending your attainment of eternal survival through the plan of the Eternal Son and the help of the indwelling Adjuster.

ASCENDING MATERIAL SONS

SUBCLASS:	5 of Ascending Sons of God
OFFSPRING OF:	Not revealed
PRINCIPLE REALM:	Not revealed
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 40-2

When an Adam and Eve are wholly successful in their joint planetary mission as biologic uplifters, they share the destiny of the inhabitants of their world; likewise, when planetary assignment is long delayed, may the Material Sons of stationary status withdraw from the activities of their status spheres and similarly register as perfected Material Sons; after these formalities such liberated Adams and Eves may immediately begin the long journey to Havona and Paradise, starting at the exact point of their then present status and spiritual attainment; and they make this journey in company with the mortal and other ascending Sons, continuing until they have achieved the Corps of Mortal Finality.

TRANSLATED MIDWAYERS

SUBCLASS:	6 of Ascending Sons of God
OFFSPRING OF:	Not revealed
PRINCIPLE REALM:	Not revealed
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 40-3

Soon after an evolutionary planet has attained the intermediate epochs of light and life (if not before), midway creatures are released from planetary duty whereupon both orders are registered in the local universe as ascending Sons of God, and immediately begin the long Paradise ascent by the very routes ordained for the progression of the mortal races of the material worlds; the primary group are destined to various Finaliter corps, but the secondary or Adamic Midwayers are all routed for enrollment in the Mortal Corps of Finality.

PERSONALIZED ADJUSTERS

SUBCLASS:	7 of Ascending Sons of God
OFFSPRING OF:	Not revealed
PRINCIPLE REALM:	Not revealed
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Paper 40-4

When the mortals of time fail to achieve the eternal survival of their souls, such failure is never in any way due to neglect of duty, ministry, service, or devotion on the part of the Adjuster; at mortal death, such deserted Monitors return to Divinington, and subsequently, following the adjudication of the nonsurvivor, they may be reassigned to the worlds of time and space; sometimes, after repeated services of this sort or following some unusual experience, such as functioning as the indwelling Adjuster of an incarnated bestowal Son, these efficient Adjusters are personalized by the Universal Father.

MIDSONITERS

SUBCLASS:	1 of those Not Classified
OFFSPRING OF:	Melchizedek Life Carrier and a Material Daughter
PRINCIPLE REALM:	Salvington and material planet
POPULATION:	Not revealed
<i>The Urantia Book:</i>	See below

The purpose of the Midsonite creatures is not at present known [U.B. page 401]; during the second or system stage of planetary light and life, Midsoniters come for the first time from the universe headquarters worlds of their sojourn to act as counselors to the legislative assemblies, and advisers to the adjudicational tribunals; they also carry on certain efforts to inculcate new Mota meanings of supreme value into the teaching enterprises which they sponsor jointly with the Finaliters [U.B. page 632]; what the Material Sons did for the mortal races biologically, the Midsonite creatures now do for these unified and glorified humans in the ever-advancing realms of philosophy and spiritualized thinking [U.B. page 633]; the present status of these beings can hardly be reckoned as either mortal or immortal, neither can they be definitely classified as human or divine; they live and function as reproducing beings on their magnificent worlds until they are one thousand standard years of age; whereupon they are translated by seraphic transport; Midsoniters are nonreproducing beings thereafter because the technique of dematerialization which they pass through in preparation for enseraphiming forever deprives them of reproductive prerogatives; these creatures are not Adjuster indwelt, hence hardly immortal, but neither do they seem to be mortal; no Midsoniter has experienced death. [U.B. page 400]

AGONDONTERS

SUBCLASS:	2 of those Not Classified
OFFSPRING OF:	(of mortal origin)
PRINCIPLE REALM:	All worlds
POPULATION:	Not revealed
<i>The Urantia Book:</i>	Page 579

Evolutionary will creatures who can believe without seeing, persevere when isolated, and triumph over insuperable difficulties even when alone; on Jerusem the ascenders from these isolated worlds occupy a residential sector by themselves; this functional grouping of the Agondonters persists throughout the ascension of the local universe and the traversal of the superuniverse; it disappears during the sojourn in Havona but promptly reappears upon the attainment of Paradise and definitely persists in the Corps of the Mortal Finality.
